MONTANA ADMITTED

The President's Proclamation Signed Yesterday.

THE GOVERNOR INAUGURATED

Universal Rejoicings Over the News of the Admission.

THE CHARGES AGAINST TAYLOR

Nothing Political in Commissioner Groff's Letter—The Admission of Washington Will Not Occur Before Monday

WASHINGTON, Nov 8.—President Harrison signed and issued the following proclamation at 10 40 o clock this morning

WHEREAS The congress of the United States by an act approved on the 22d day of February 1889 provided that the inhabitants of the territory of Montana might upon the conditions prescribed in said act, become the state of Montana and

WHEREAS It was provided by said act that delegates elected as therein provided to a constitutional convention in the territory of Montana should meet at the seat of government of said territory and after they had met and organized that they should declare on behalf of the people of Montana that they adopt the constitution of the United States whereupon the said convention should be authorized to form a state government for the proposed state of Montana and

WHEREAS It was provided by said act that the constitution so adopted should be republican in form and make no distinction in civil or political rights on account of race or color except as to Indians not taxed and not repugnant to the constitution of the United States and the principles of the Declaration of Independence and that the convention should, by an ordinance irrevocable without the consent of the United States and the people of said state make certain provisions prescribed in said act and

WHEREAS It was provided by said act that the constitution thus formed for the people of Montana should by the ordinance of the convention forming the same be submitted to the people of Montana at an election to be held therein on the first Tuesday in October 1889 for ratification or rejection by the qualified voters of said proposed state that the returns of said election should be made to the secretary of said territory, who with the governor and chief justice thereof, or any two of them should canvass the same, and if the majority of the legal votes cast should be for the constitution the governor should certify the result to the president of the United States together with a statement of the votes cast thereon and upon the separate articles or propositions and a copy of said constitution, articles propositions and ordinances and

WHEREAS, It has been certified to by the governor of said territory that within the time prescribed by said act of congress the constitution for the proposed state of Montana has been adopted and that the same, together with two ordinances connected therewith, have been ratified by the majority of the qualified voters of said proposed state in accordance with the conditions prescribed in said act and,

WHEREAS A duly authenticated copy of said constitution and ordinances as required by said act has been received by me

Now, therefore, I, Benjamin Harrison president of the United States of America, do, in accordance with the provisions of the act of congress aforesaid declare and proclaim the fact that the conditions imposed by congress on the state of Montana to entitle that state to admission to the Union have been ratified and accepted, and that her admission into the Union is now complete In testimony whereof I have hereunto set my hand and caused the seal of the United States to be affixed

Done at the city of Washington, this 8th day of November in the year of our Lord the one thousand eight hundred and eighty ninth and of the independence of the United States of America the one hundred and fourteenth

BENJAMIN HARRISON

By the president,

JAMES G BLAINE Secretary of State.

GOVERNOR TOOLE INAUGURATED

A Proclamation Issues To-day for Convening the Legislature.

HELENA Nov 8.—Governor-elect Joseph K. Toole was inaugurated at 2 o clock this afternoon. The official dispatch of Secretary Blaine that the president had signed the proclamation admitting Montana to statehood was delivered at 10 40 A. M to Governor Toole who signed for it at 11 o clock A telegram was also sent to Governor White at Dillon He will probably reach the capital to morrow and turn over the office to his successor Those of the new state officials who were in Helena at the time the news was received lost no time in qualifying Judge Sanders, police magistrate of Helena, had the honor of starting the state machinery in motion by administering the oath of office to Chief Justice Blake the ceremony taking place in the police court room at 12 30 o clock in the presence of a few witnesses shortly afterwards William H Hunt was sworn in as district judge of the first judicial district of the state

At ... o clock the inauguration of Governor Toole took place in the office of Governor White, at the courthouse A quarter of an hour before the great event transpired the governor s office was crowded with citizens assembled to witness the ceremony When Governor Toole entered the crowd of good humored people broke out into cheers for the new governor The oath was administered at exactly 1.58 o clock Governor Toole then gave himself up to handshaking and received for half an hour the stream of people who pressed forward to tender congratulations. Later in the afternoon Governor Toole telegraphed Secretary Blaine that he had taken the oath of office and had entered upon his duties as governor of the state of Montana The inauguration took very little time and in three hours after the proclamation was issued Governor Toole took possession of the state executive chair

A proclamation convening the legislature for not later than November 20, to elect United States senators will be issued to-morrow

VENEZUELA CLAIMS COMMISSION.

Interested Parties Warned to Give Immediate Attention to the Matter

WASHINGTON Nov 8—The following is furnished by the department of state "The commission known as the United States and Venezuela claims commission is now in session at Washington to adjudicate the claims of citizens of the United States against Venezuela presented to the former or its legation at Caracas before August 1 1868 and determine under circumstances as to the rights of the parties in the certificates of award issued by the former The persons concerned will do well to give immediate attention to their interest as the commission will expire in less than a year from this date

THE OHIO SENATORSHIP.

Trouble in the Democratic Camp Over Distribution of the Spoils

COLUMBUS O Nov 8—In contest in the legislature for a United States senator to succeed Henry B Payne promises to be long and bitter. There are no less than a dozen prominent democrats who will make an effort to gain the seat While the democratic managers have agreed to give the United States senatorship to Calvin S Brice or if he does not want it to John R McLean [illegible] going to have trouble delivering the goods. John H Thomas, a [illegible] manufacturer of Springfield is already raising his voice against the sellout and a cry is coming up from the followers of other leading aspirants for the honor Already Lawrence T Neal and Virgil Kline candidates against Governor elect Campbell for the gubernatorial nomination William M Ramsey of Cincinnati, former law partner of Justice Stanley Matthews T E Powell, Congressman Joseph H Outhwaite Henry J Booth former law partner of George L Converse ex Congressman Warren P Noble and George L Converse himself, are all in the race for the senatorship while James E Neal, chairman of the democratic state executive committee, is spoken of as a possible entry It is also hinted that Allen W Thurman would like to sit in his father s old seat. It is not impossible that the fight may rival in intensity that between Senator Henry B Payne and Hon. George H Pendleton six years ago

THE CHARGE AGAINST TAYLOR

No Political Meaning—Charge Soon Expected in Oregon Federal Offices

WASHINGTON Nov 8.—Senators Mitchell and Dolph both assert most positively that there was nothing political in the recent charges preferred by Commissioner Groff in his letter to Secretary Noble. The commissioner s letter was the first intimation they had that there was any dissatisfaction with the surveyor general. They had not contemplated any change in the office of surveyor general until the expiration of Taylor's term This was upon the advice and consent of many leading republicans of Oregon as well as upon their own belief that Taylor was making a competent and faithful official.

EXPECTED CHANGES IN OREGON'S FEDERAL OFFICES.

There are some changes pending in the Federal offices of Oregon, but they await the arrival of Representative Hermann, as the senators are not fully agreed and Mr Hermann will be called in as referee which ever way he decides the whole delegation will then unite and then the appointments will soon follow

WASHINGTON S ADMISSION

J W Robinson, of Olympia, who brought the returns from Washington to the president minus the governor s certificate, is again here awaiting the arrival of the important paper He has been advised by telegraph that another special messenger is on his way with the constitution and certificate It is no likely that the proclamation of admission will be issued until Monday even if the messenger arrives to morrow

COMMENT ON MONTANA AFFAIRS

Republicans here believe that the admission of Montana to-day putting the republican state supreme court in power and relieving the territorial democratic supreme court from further duty will settle the election cases pending in favor of the republicans, as it was a week ago that the final count was completed No time was lost in getting the returns and issuing the proclamation

NOTES OF THE ARMY

The secretary of war has issued the following orders Captain Nash, on being relieved by Captain Alexander will proceed to Vancouver barracks, Washington territory and report in person to the commanding general of the department of the Columbia for duty as chief commissary of subsistence of that department to relieve Captain Henry H Sharpe commissary of subsistence Captain Sharpe, on being relieved by Captain Nash will proceed to Portland Or, and assume the duties of purchasing and depot commissary of subsistence in that city

THE MARINE CORPS.

Colonel McCawley's Idea of the Causes of the Frequent Desertions

WASHINGTON Nov 8.—Colonel McCawley, commander of the marine corps, in his report for the year ended September 30 1889 says on the subject of desertions "The frequency of desertions is an alarming evil, from which, in common with the army we suffer greatly In my opinion the cause is that the men are overworked from their being too few to do duty There are many who enlist for no other purpose than to secure a home for the winter season, as desertions are always more common in the spring and early summer"

AN ANTI-MAHONE MOVEMENT

A Large Number of Southern Republicans Dislike His Leadership

RICHMOND, Va Nov 8.—About five thousand anti Mahone republicans will attempt an organization of the party in Virginia which will be recognized by the national administration "We mean business one of the kickers said last evening we are republicans and do not intend to be driven out of the republican party by Mahone Now is the time for us to strike, while the iron is hot there is every probability of two republican parties in Virginia."

The kickers are composed of the more respectable element of the party and will probably organize under the name of true republicans. Mahone, who is chairman of the regular organization will retain the present name One of the anti Mahonites here, remarked that General Mahone was wrong in making light of the idea of having a Southern man on the ticket for vice president. The sentiment here is that John S. Wise should be the man for that honor Wise's friends would start a boom for him provided they could break up Mahone s committee and have one grand and harmonious organization in the state.

THE IOWA ELECTION.

Allison Confident of Being Re-Elected—Cleveland Sends Congratulations.

DUBUQUE, IA. Nov 8—Senator Allison returned this evening from the headquarters of the republican state committee where he has been for the last two days, and says that the legislature is safely republican by eight on joint ballot, and possibly ten, as one district is still in doubt He has no fears of any combination between any of the republican members and the democrats to defeat him He declined to be interviewed on what had produced the surprising result of Tuesday

H H Ham editor of the *Herald* this afternoon received a dispatch from ex President Cleveland as follows "The people of Iowa are especially to be congratulated on their victory over prejudice and superstition The democracy of the state deserve the greatest honor"

Full returns from every county in the state as received by the *Herald* give Boies a total majority of 7122.

DEMOCRATIC DYNAMITERS

So Delighted Over Tuesday's Election That They Demolish a Postoffice

WASHINGTON, Nov 8.—The postmaster general has received a telegram from the postmaster at Louisa, Kent county, Ky, dated November 7, in which he says his office has been completely demolished by persons who wanted to let him know how Ohio had gone politically They used dynamite An investigation has been ordered.

IT WAS CRONIN'S BODY.

No Further Doubt About the Catch-Basin Discovery.

ANOTHER SENSATIONAL FIND

The Doctor's Clothes and Instruments Identified

TAKEN FROM A SEWER BY WORKMEN

Great Excitement Among the State Officials—A Tragic Event—Proceedings at the Trial of the Suspects.

CHICAGO Nov 8.—Dr Cronin's clothing and case of surgical instruments were found this afternoon and fully identified, and the discovery has created the greatest excitement among the officers of the state. It was stated in the courtroom that the clothes and case of instruments were found in a catch basin in Lake View by Lieutenant Roche, of the Lake View station, not a hundred feet from where Dr Cronin s body was thrown It was afterwards learned that they were discovered at some little distance from the spot where the body of the murdered man was found, but in close proximity to the place where the bloody trunk was discovered. They were covered with slime. but the instruments were easily recognized as belonging to a physician s outfit. Lieutenant Roche as soon as he made the discovery, at once started for the police headquarters. Chief Hubbard said that the clothes and instruments were undoubtedly Dr Cronin s.

Complaints have been made recently that the sewer at the intersection of Evanston and Buena avenues was running over, and to-day workmen were sent to investigate the trouble. The cover was removed from the manhole in the center of the street and, after a few minutes work with poles and hooks, two valises were brought up one a leather one and the other a cheap paper one In the leather valise was found Dr Cronin s prescription book, with several prescriptions bearing his signature The paper one dropped to pieces as it was pulled out, and from it rolled a mass of tattered clothing, most of which had been cut in strips. The only garment remaining intact was the vest which was in the center and which encircled the doctor s case of surgical instruments. The clothes had evidently been cut, in the hope that they would sooner drop apart and be borne away in the sewer The clothing surgical case and prescription book, the latter two being marked with Cronin's name, were fully identified by the Conklins and others as the property of the murdered physician. The most damaging of all the circumstances for the prisoners is the fact that the find was made only one block from the spot where the bloody trunk was discovered after it had been thrown hurriedly from the wagon and only half a mile south of where the body was found in a catch basin. The paper valise is supposed to be the one purchased by J B Simonds, and to morrow a clerk will endeavor to identify it

A tragic event which occurred immediately in front of the courthouse while everybody was examining these articles, caused wild excitement. A shot was heard just at the entrance of Judge McConnell s court A dozen lawyers and reporters rushed out and found stretched on the sidewalk the body of a large man with a revolver in his hand and the brains oozing from his skull. He was dead and as no one could identify him it was at once presumed that his tragic death had some mysterious connection with the sensational discoveries of to-day. After an hour s investigation, however, it was learned that his name was Edward Rahm and that he had been for some time known to be partially insane. He doubtless committed suicide while laboring under a mental aberration.

PROCEEDINGS AT THE TRIAL.

Further Incriminating Evidence Against Coughlin, Kunze and O'Sullivan

CHICAGO, Nov 8.—In the Cronin case the cross-examination of Captain Shutter was continued this morning Nothing new was developed.

William Nieman, who at the time of the murder kept a saloon near the Carlson cottage, testified that O Sullivan entered the saloon between 10 and 11 o clock on the night of the murder, accompanied by two men According to his best judgment he thought that Coughlin was one of the men. He thought that the third man was Kunze. They talked together in undertones with their hands to their faces.

The first witness this afternoon was Andrew J. Morratt a printer who works for Mr. Stanton, the man who printed the business cards for O Sullivan one of which was used to decoy Dr Cronin to his death and the identified card heretofore placed in evidence on April 27 O Sullivan called before all the cards were printed and took some of them away with him He also left instructions to give the rest to one of his men, if he should call

Policeman Hoefig desk sergeant of the East Chicago avenue station where Detective Coughlin was stationed previous to his arrest in connection with this case testified that in the month of April he received a telephone message from O Sullivan who wanted to see Coughlin at his (O Sullivan s) house that evening When told of it Coughlin said All right On the first or second day of May he received the same message again, and again Coughlin said All right. It is O Sullivan the ice man

Policeman Calvelege identified the foot marked portion of the floor from the Carlson cottage bedroom as being the same that was taken out by him.

Ex Police Officer Hunkaler of Lakeview, testified that on the night of May 12, about 12 o'clock, he drove away two men, a tall one and a short one, who were standing on the sidewalk near the Carlson cottage, telling them that they had no business to be out at that time of the night. Witness then walked past the cottage and noticed a bright light burning within. Ten minutes later, when repassing, he noticed that the cottage was in darkness

Policeman Robinson testified that Officer Hunkaler had called his attention to the Carlson cottage about 1 o clock May 12, and that between that time and going past it to the north and returning the position of one of the blinds had been changed The lower slats were opened.

The court then adjourned

ALEXANDER SULLIVAN.

Application Made for His Discharge From Bail.

CHICAGO Nov 8—Application was made this morning before Judge Baker for the discharge from $20 000 bail of Alexander Sullivan in which he was held last June The claim was made that the grand juries since then having failed to act, his bail should be dropped. The court was inclined to coincide in this opinion but put the matter over until to-morrow at the request of the state.

LOOK OUT FOR FIRE!
To Theater Owners Managers and Whom it May Concern
This is to certify that I have equipped the Windsor theater in this city with the Lindgren station ry chemical fire extinguishers ... After examining all other systems of fire protection and after repeated tests of the Lindgren stationary chemical fire engine and upon the recommendation of the insurance underwriters I have no hesitation in pronouncing it the cheapest and most powerful as well as perfect fire protection for theaters ever invented In my opinion every theater and opera house in the United States as well as Europe should be equipped with these chemical fire engines ... it will thus save the loss of life and thousands of dollars in property

SENATORIAL RUMORS.

Allen and Squire Will Force a Ballot Tuesday.

BRENTS AND TURNER COMBINING

Men Chosen to Make the Nominations—Strength of Candidates—Crowds Leaving Olympia for Seattle and Tacoma.

OLYMPIA, Nov 8.—This has been an uneventful day, and the crowds that have thronged the Carlton house and headquarters of the various senatorial aspirants all week have not been so large as usual. Many left during the day to spend the recess in Tacoma and Seattle and many more will go to-morrow. The senatorial candidates and their chief lieutenants are still here, and watchful of their interests. There are so many rumors of combinations and bargains that their presence is required to keep their forces marshalled.

Walter J Thompson will probably go to Tacoma to-morrow and return Sunday night.

The Squire and Allen men admit that they made a blunder in allowing the senate to take a recess yesterday without forcing a ballot, as they had made up their minds to do. They say it was the result of a misunderstanding and they feel pretty cheap that such a thing should happen when they could have prevented it. They are going to redeem themselves, however. Though they are confident of success they recognize full well that delays are dangerous and have concluded to force a ballot next Tuesday whether President Harrison issues his proclamation or not. If the proclamation is not issued by that time there is no legal impediment to ballot, for the enabling act contains the requisite authority. If the proclamation has been issued by that time it is difficult to see how they can elect senators without violating the laws of the United States which provide clearly that senatorial elections shall be held on the second Tuesday after the organization of both houses of the legislature. Their plan is to elect, and if the election is not legal, they will elect again. Squire will be nominated in the senate by Kinnear and in the house by F J Grant, formerly of the Seattle *Post Intelligencer*. Brown of Spokane will second the nomination in the house. Allen does not know who will nominate him. Thompson or Parkinson will probably name him in the senate and Painter in the house. Henry Drum will nominate Thompson in the senate. Brents will be nominated in the senate by Owings and in the house by Herrin.

It was given out this afternoon that Turner and Brents had pooled their issues. A Turner man is authority for the statement. Friends of both candidates held a meeting this afternoon to devise ways and means to defeat Allen. They had quite a long conference and probably pooled their issues as Turner's friends said. Brents admitted that a meeting had been held and frankly confessed that it was the purpose of himself and Turner to defeat Allen if possible. He was confident that he had a larger following than Turner and that if a breach could be made in Allen's forces Allen's men would rally around his standard and his election would be assured.

Turner when seen said he did not know there had been a meeting and added that he knew nothing of a combination with Brents. This evening however, he told a member of the legislature that he and Brents were going to try to defeat Allen.

As it takes more than talk to effect a combination let us see what material Turner and Brents have. Their plan as it was announced to-day is for the one having the smallest following to draw out the other to combine with Governor Squire's forces. This plan is impracticable and Governor Squires would not entertain it for a moment for it would bring about his own defeat. The moment he would enter into such a bargain he would lose between twenty five and thirty Allen votes which, deducted from the strength of seventy one votes claimed by his adherents would leave him forty six, seven less than the number necessary to elect. Turner or Brents cannot hope to receive the strength of General Sprague for if he withdraws Fairweather and others from middle Washington will go to Squire. The combined strength of Turner and Brents is computed at twenty votes. The Squire and Allen men ridicule the idea that they have lost ground by the recess though they admit that it would have been better for them had they forced a ballot.

When Allen was told to-night that Brents and Turner were combining to defeat him he smiled and said "I do not care for their combination, for it cannot hurt me."

STANDING COMMITTEES.

Speaker Feighan, of the house says he will announce the standing committees next Tuesday or Wednesday. The house committee appointed to determine what additional officers are needed will meet Monday morning.

GOVERNOR FERRY'S MESSAGE.

Some of the Suggestions That It Probably Will Contain.

Governor-Elect Ferry left for Seattle to-day to complete his inaugural address and message. The former will occupy about twenty five minutes in its delivery and the latter about thirty five minutes. Governor Ferry calculates that he will send his message to the legislature about the 20th. As it will be the first message under the state form of government there is much curiosity now as to what it will embody. It is expected that he will advise the legislature to pass laws having a bearing upon the following subjects. The manner and in what courts suits against state may be instituted, providing for the prosecution and punishment of persons attempting to corrupt members of the legislature and state and municipal officers, establishing a bureau of statistics for agriculture and immigration for the protection of the employes of factories and mines for dangers to life or health regulating the pardoning power of the governor, prescribing the jurisdiction and powers of inferior courts, for the publication of the opinions of the supreme court for providing a system of voting which shall aid in preparing and depositing ballots for a uniform assessment and taxation law for a general and uniform system of public schools for the organization of the state National Guard to establish a system of county government, establishing maximum rates of charges for transportation of passengers and freights, prohibiting the issuance by railroad companies of free passes or sale of tickets at discount to submit to the people the question of a permanent state capital to provide for the appointment of a harbor commission establishing a state board of health to regulate the practice of medicine and surgery and the sale of drugs and medicine.

THANKSGIVING PROCLAMATION

The Last Ever Issued by the Territorial Governor of Washington.

OLYMPIA Nov 8—Governor Moore issued a Thanksgiving proclamation to-day. It is the last that will ever be issued by the territorial governor. Here it is:

Conforming to a custom transmitted by our fathers, I hereby appoint Thursday, the 28th day of November, 1889 as a day of thanksgiving, and I do declare said 28th day of November a legal holiday, and earnestly request our people to suspend their usual vocations and assemble in their houses and places of worship and return thanks to the supreme ruler of the universe for the health peace and prosperity which prevail throughout the land.

Done in the city of Olympia this 8th day of November, A D 1889, of the independence of the United States the one hundred and fourteenth.

MILES C MOORE

By the Governor.

TACOMA NEWS

Legislators Visiting the Sound—Thompson's Chances Discussed.

TACOMA, Oct. 8.—The adjournment of the legislature is being taken advantage of by many of the members of both houses who have never visited the Sound to make themselves acquainted with Tacoma, Seattle, Fairhaven, Port Townsend and other of the rising cities in this district. Many of them arrived here to-day and proceeded down the Sound. They stayed in Tacoma a few hours and some of them will remain over until Monday.

THE OREGONIAN's correspondent put the stereotyped question, "How about the senatorship?" to most of them and was told if Pierce county will only unite on some young vigorous man who can be of service to the whole state who will not stand on his dignity and say that the senatorship is less than his due but that he will graciously accept it if tendered as homage to his superior abilities, that the young man whose chances of being of service to the state are good will be acceptable to them. They stated that the general feeling on both sides of the mountains was that Pierce county was entitled to a senatorship and that as quickly as the differences were healed, there would be an enormous accession of strength to a Pierce county man provided he was qualified.

"General Sprague, said one is not qualified. He could not stand the fatigue incident to a session of congress when the necessities of the new state would make the duties so arduous. There are, however, members of both houses who want to be on the winning side. These are now largely enrolled among the supporters of Governor Squire, on account of the candidature of General Sprague who has passed the three score years and ten, and while there may be labor and sorrow in store for him there is no strength nor can there be. There is a strong desire that there shall be some agreement arrived at by which Pierce can secure the senatorship, but there is no earthly chance for General Sprague and he ought to get out of the way. A rumor was afloat in Olympia that some arrangement had been made but the details could not be learned. The general impression however is that Mr Thompson will have the Pierce county delegation before the legislature proceeds to a ballot, and that there will be a regular stampede in his favor, and that he will be elected on the first ballot.

Various statements have been made as to the business on which Mr J W Anderson has gone to Washington city. Your correspondent was informed to-night that his business was to claim the odd sections of the lands for the railroad company and prevent Valentine and McKee scrip being placed and held on the even sections.

A meeting of the stockholders of The Tacoma Hotel Company was held to-night when Nelson Bennett was elected president, George Browne vice president, James M Ashton secretary and Henry Drum treasurer. Nothing was done toward the election of a permanent manager but Mr George A Cheney was continued temporary manager and it was stated that his duties so far had been performed to the entire satisfaction of the company.

The twin professions civil engineers and architects effected an organization to-night which is intended to advance the efficiency of each and also increase the means of social enjoyment. The constitution and by laws are generous enough to include all experienced and reputable members of either profession and were signed by the thirty members present. The officers elected were B S Hinton president, Arthur L Smith, vice president, W G Rosliff secretary, L A White treasurer and librarian.

The new cavalry company which organized a few days ago received its christening to-night. It will hereafter be known as the Tacoma First Cavalry Company and it intends to take a prominent part in the grand parade at the inauguration ceremonies.

The central meeting of the W C T U held today took a pronounced attitude against the demoralizing results of cheap novels. It was the sense of the ladies that the best class of literature must be sold at equal prices with others.

AFFAIRS IN IDAHO.

The Few Votes Against the Constitution Cast Mainly by Farmers.

BOISE CITY, Nov 8.—The returns so far indicate a total of 13 700 in favor of the new constitution and about 2100 opposed. The mining counties are solid for the constitution. Nearly all the negative votes are from farmers. At Salmon City the home of Governor Shoupe the vote was for the constitution and one vote opposed to it. The governor is going home to hunt that man with a brass band. The Mormons did not vote saying they would send remonstrances to congress against admission.

In view of the probable promotion of Willis Sweet to the district judgeship the friends of Fremont Wood, of this city are sending strong petitions in favor of making him United States district attorney to succeed Sweet.

VICTORIA NOTES.

Departure of the Vice Regal Party—Damage to the Amphion.

VICTORIA B C Nov 8—The vice regal party left on the warship Champion for Vancouver at 10 o clock this morning.

The war cruiser Amphion is now undergoing repairs in the dry dock and it is thought she will have to return to England to be placed in a first class condition. Thirty five plates will have to be removed, and several ribs have been bent. The exact point where the vessel struck is a bluff on Henry Island at the north end of San Juan, about twenty miles from Victoria. Bushels of shattered rock were found where the vessel struck. The opening made is about forty feet in length. Several small punctures were also made in the hull aft. The water is 149 fathoms deep where the vessel struck. She was but a few yards out of her proper course.

General sympathy is expressed for Commander Hulton who is most popular. It is thought that the damage to the vessel amounts to $100 000.

It is understood here that Collector of Customs Hamley has been superannuated and that Appraiser Milne has been appointed in his stead.

At Walla Walla.

WALLA WALLA, Nov 8.—At noon to-day the old hospital building at the garrison, occupied by Bandmaster Meyrellos, was destroyed by fire. The loss is probably $3000.

James Gordon Cooper charged with the murder of Thomas Davis, was acquitted this afternoon. Cooper has been in jail a year and was tried once before when the jury disagreed. The verdict gives general satisfaction.

The senatorial committee passed through here this morning en route East. While here the senators made particular inquiry regarding the navigation of the upper Columbia river and were surprised at the amount of navigable water above The Dalles and Priest rapids. They promised all the assistance possible in securing appropriations for opening up the river.

RELENTLESS WATERS

They Engulf a Mother and Her Seven Children.

SELF AMPUTATION TRIED AT SALEM

The Commission Wants the Railroads Fenced in—Convicted Train Wrecker Given Ten Years in the Penitentiary.

ALBANY Or Nov 8.—Nine persons a man a woman and seven children attempting to cross Yaquina bay in a small boat Wednesday were drowned. The bodies of the mother and six of the children have been recovered.

During the past month there came to Yaquina bay from the East two families and settled in Newport until they could look around and find suitable locations for permanent homes. The heads of the respective families were G W Parker who came from Lake county South Dakota and his brother in law H A Wagner whose former home was in Dubuque Iowa. Parker soon succeeded in locating a claim on the south side of the bay opposite Newport where he built a house and made some other improvements previous to taking his family there. Everything was in readiness Tuesday for the reception of his loved ones but as the bay was quite rough from previous high winds and the trip across had to be made in a small boat it was thought best to delay departure. On Wednesday however it was deemed safe to make the venture and the whole family embarked Parker and his wife and their seven children one being a babe in its mother's arms. The brother in law, Wagner, went along to bring the boat back to Newport.

Neither of the men brought up as they were in the prairie countries of the Middle West, had any knowledge of handling a boat and it seemed like foolhardiness to start out in a frail craft so heavily freighted with precious human lives, with the dark waters of the bay still heaving tumultuously from the long ocean swells that rolled in over the bar. It is said that old sailors who had lived there many years advised the men strongly against tempting Providence in such a craft as they had which he nearly all hose on the bay, are no more than seaworthy in a summer calm. But the men laughed at all fears. Wagner assured his wife he would be back before dark, and they pushed off.

Many watched them from the shore, and were horror stricken to see the boat, when about half way across the bay swamped by a huge wave and the entire party left helpless in the water. Neither of the men could swim so there was no possible hope for the women and children who quickly disappeared beneath the dark waters as did also Wagner. Parker managed to get hold of the boat and cling to that until help could arrive from the shore. This came immediately but Parker was almost dead from exhaustion when the rescuing party reached him and had it been a greater distance, must certainly have shared the fate of his family.

When the tide went down, the bodies were recovered where the sea had left them tossed up on the sand flats to the southward. The mother was found with her skull crushed, the waves having evidently dashed her against the boat before she sank. Her little babe was still clasped tightly in her loving arms. Parker is almost beside himself at the loss of his wife and little ones and Mrs Wagner, it is feared may yet join her husband so great is her grief at his death.

STATE PRISON AFFAIRS

Two More Convicts Attempt the Feat of Self Amputation.

SALEM Nov 8.—For some reason unknown to the outside world, convicts in the Oregon penitentiary continue to cut off, or attempt to cut off, their hands. The latest to perform the self amputation feat were Cummings and Burke from Multnomah county. The former succeeded only in part getting off the end of one finger and the latter made two bad hacks to the bone. Five have now performed this feat, and as a punishment will be kept in dungeons.

J D Moore was left at the penitentiary to-day being the first prisoner from Harney county. He comes to stay one year for polygamy.

W A Hill was brought to the penitentiary to-day from Linn county to serve his ten years sentence for manslaughter. He wrecked the train at the Lebanon switch.

NEWS FROM ASTORIA

Burning of a British Bark in the South Pacific—Railroad Building.

ASTORIA Nov 8.—The British bark Clan McPherson Wilson, master arrived this morning eighty days from Montevideo in ballast to load wheat. She had on board beside her own crew, Captain Williams and nineteen men, the entire crew of the British bark General Picton, burned at sea, 250 miles off Cape Horn in the South Pacific on the 14th of last September. The General Picton left Gaston for Liverpool June 29 coal laden for Iquique. On September 11 gas of a sulphuric odor was noticeable. The cargo was discovered to be on fire September 14, when in latitude 56 deg south, longitude 74 deg west. They signaled bark Clan McPherson which came along side and stood by. At 6 o clock that afternoon all the crew with their personal effects, were transferred to the Clan McPherson. Captain Wilson agreeing to take them to Oregon.

At 8 o clock that evening the flames burst out and wrapped the ship in a sheet of fire. A heavy gale sprang up and the burning vessel drifted. Had rescue been delayed two hours the crew would have had little chance of being saved.

Active work on the jetty at the mouth of the river for this season closed on December 1.

There is great sport at the seaside trolling for salmon with spoonhooks. Fine salmon from fifteen to thirty pounds are daily caught.

It is intended by the 20th inst to have an additional 1000 men together with the 1000 now at work grading the line of the Astoria & South Coast railroad. Work is being pushed all along the line.

THE FARMERS' INSTITUTE.

An Interesting Meeting in Progress at Oregon City.

OREGON CITY Nov 8.—The Farmers' Institute opened its session here last night with a fair attendance. Hon Peter Paquet presided and E M Rands acted as secretary. An address of welcome was delivered by Dr J Casto and responded to by Professor E Grimm, of the State Agricultural college. Miss Nettie Barlow rendered a vocal solo. Mr B S Pague of the U S signal service read a paper on Climate, Observations and Deductions," which drew forth a lively discussion. H E Hayes, representing the Patrons of Husbandry, also delivered a brief address. The evening session closed with a vocal duet sung by Misses Baird and Graham.

At the morning session the first paper was read by Professor H T French of the Agricultural college, "The History of Silo." O P Mason of Portland read a brief paper upon "Oregon Farming." It was well received and a motion to publish it in the local papers prevailed.

Many visitors utilized the noon hour to visit the factories and mills being built on the west side and at 4 o clock a party from the Agricultural college drove out to Captain Apperson's farm to look at his fine Jerseys.

LANE COUNTY'S WEALTH.

The Assessed Valuation Amounts to Over Six and a Half Millions.

EUGENE, Or Nov 8.—The assessor has just completed his work for the current year, and his footings show Lane county has a gross valuation of all property amounting to $6 626 971, with an indebtedness of all classes aggregating $1 292 190 and exemptions equal to $ 2,468 leaving a net property of $4,802 313 subject to taxation for the county. This is an increase of about $400 000 as compared with last year and shows that while Lane county has had no special boom yet she has enjoyed substantial improvement as rates of assessment were not advanced as much in proportion as the selling prices of lands and other property were not increased over former assessments.

Ten Years for Train Wrecking.

ALBANY, Nov 8.—The Southern Pacific train wrecker was to-day sentenced to ten years in the penitentiary by Judge Boise. The two Rolfe brothers, indicted jointly with him, have both been discharged.

A SHOCKING TRAGEDY

Prominent Kentucky Politicians Fight to the Death.

BOTH MEN HELD IN HIGH ESTEEM

One Used a Pistol the Other a Knife—Coolness of a Wounded Man—The Result of Political Differences.

LOUISVILLE Ky Nov 8.—Colonel William Cassius Goodloe a member of the national republican committee, and collector of the seventh internal revenue district stabbed and killed Colonel A M Swope, a prominent republican at Lexington this afternoon. Goodloe was shot and fatally wounded. The men met in the postoffice corridor, and when each saw who the other was they glared at each other fiercely. Then some angry words followed, when both suddenly drew their weapons, Swope a pistol and Goodloe a clasp knife. As soon as the weapons were drawn Swope fired, and Goodloe knocked the pistol down as it went off the ball entering his abdomen on the right side. Goodloe then began stabbing his opponent in the breast with a knife. After several blows had been struck by Goodloe, Swope fired again, missing Goodloe. After firing the second shot, Colonel Swope fell on his face and weltering in blood died almost instantly. On his person were found thirteen wounds, they being on the back, arms and breast. Immediately after the killing, Colonel Goodloe went to a physician where his wounds were examined. He was perfectly cool, and made disposition of his property, in case of death. The cause of the difficulty was a statement made in the republican convention May 1 1880 by Goodloe that fully two-thirds of the Fayette county delegation in the convention did not speak to Swope.

Colonel Goodloe had been for years a prominent man in Kentucky politics, was minister to Belgium under Hayes, and is a member of the national republican committee being chairman of the committee on speakers. He is 48 years of age, married and has eight children. Colonel Swope was 40 years of age and unmarried, and was collector of internal revenue under Grant and Hayes.

At 11 o clock Goodloe was resting easy. The physicians say that his condition is more hopeful. He is not under arrest. Public sympathy is about equally divided but universal sorrow is expressed.

PRESIDENT HARRISON SHOCKED.

WASHINGTON, Nov 8.—Colonel Dudley this afternoon, in response to a telegram asking for particulars in regard to the tragedy at Lexington, received a message, stating that Goodloe's wound was very serious but not necessarily fatal. The intelligence of the tragedy and its probable fatal termination to both persons was a profound shock to a number of persons in this city. Colonel Goodloe had many friends here. As a member of the republican national committee, he naturally enjoyed the confidence of the chief public men of the republican party, and his courtesy and genial nature gave him a warm place in the affection of not only those with whom he was in political accord, but of those with whom he differed in national affairs. By marriage he is related to Senator Beck of Kentucky. When in the city, he was a frequent visitor at Senator Beck's residence, and he had met many of the democratic members of congress. The president knew Colonel Goodloe well and esteemed him highly. The news of his probably fatal shooting affected him to a most marked extent. The intelligence seemed to sit in the president, almost as though it had been a near relative. The book which he was holding in his hand at the time fell to the floor and for a few minutes he paced nervously and abstractedly up and down. The subject is the one topic of conversation here to-night among public men and in public places.

A PERSONAL GRIEF TO THOUSANDS.

WASHINGTON Nov 8.—First Assistant Postmaster General Clarkson said to-night: "In the republican party of the nation there are few men better known or more widely admired, than Colonel Goodloe. The announcement of this afternoon will be like a personal grief to thousands of republicans throughout the North. Colonel Goodloe could have had recognition under the administration, but he preferred to stay in Kentucky because of his business interests."

ANOTHER FATAL AFFRAY.

Two Prominent Virginians in Bloody Conflict.

LEXINGTON, Va., Nov 8.—Reports received here from Brownsburg, a small village of about 300 people, in Rockbridge county, fourteen miles north of Lexington state that that village is terribly excited over a bloody fight of leading men of the vicinity. Dr P J Walker, one of the most prominent physicians and surgeons of the state had threatened the life of Henry Miller, a prominent and wealthy citizen of Rockbridge county for insulting the former's wife. Miller had Walker arrested and placed under bonds to keep the peace. This afternoon the case came up in the magistrate's court, and the trouble was soon started which ended in both sides drawing weapons. Miller was killed and Dr. Walker fatally wounded, and Mrs. Walker, who was a witness was also killed. Dan and William Miller, sons of Henry Miller, were shot and Dan was seriously wounded. Samuel Beaver and others whose names are unknown, were also injured. The sheriff and a posse have gone to the scene of the trouble.

A WOMAN IN THE CASE.

Two Negroes Deliberately Shot and Killed at an Entertainment.

CHESTERTOWN Md., Nov 8.—Frank Harris deliberately shot and killed A L Trusty and Edwin Brown last night. The affray happened at a negro entertainment. There is said to be a woman in the case.

A Philadelphian Murdered in Wyoming.

PHILADELPHIA Nov 8.—A special to the *Press*, from Scranton says: Word was received here today of the murder of Benjamin Fordham, a young man from this city, near Rongis, Wy. Justice McIntosh, of that place, sent a letter to Fordham's sister, written by her to her brother and found in the dead man's pocket, and which led to his identity. He is supposed to have been killed by four men, with whom he was traveling.

HIGHEST AWARD IN OUR CLASS!

WE LEAD THEM ALL!

Bronze Medal! Bronze Medal!

There is no proprietary medicine in the world that has grown into popularity and favor in so short a period of time as the remedy known as THE GREAT SIERRA KIDNEY AND LIVER CURE. The Sierra Chemical Co, manufacturers of these valuable goods is composed of bright, active Californians, of thorough and long experience in their line of business. They have shown wonderful enterprise in bringing before the public a purely vegetable compound, the chief ingredients of which are composed of herbs gathered on the sides and in the canons of the noted Sierra range of mountains, from which this remedy takes its name. At the MECHANICS' EXHIBITION, 1889, this company were awarded the highest premium given to medicines—A BRONZE MEDAL. The committee that pronounced this verdict was composed of the two leading analytical professors on this coast, viz: Professors RISING and WENTZEL. This goes to prove its superiority over all other preparations. Delightful to the taste and as a positive cure for all Kidney, Liver and Bladder troubles it has no equal on earth.

All druggists sell these valuable goods.

Catarrh is Caused

By scrofulous taint in the blood. Therefore, to cure catarrh, PURIFY THE BLOOD. Thousands who have been troubled with the disagreeable symptoms of catarrh have been entirely cured by Hood's Sarsaparilla, the best blood purifying medicine before the public. It expels every taint of impurity from the blood and vitalizes and enriches it. If you suffer from catarrh, give Hood's Sarsaparilla a trial.

"I have suffered with catarrh in my head for years, and have paid out hundreds of dollars for medicine, but have heretofore received only temporary relief. I began to take Hood's Sarsaparilla, and it helped me so much that I decided to keep on. Now my catarrh is nearly cured the weakness of my body is all gone, my appetite is good—in fact, I feel like another person. Hood's Sarsaparilla is the best medicine I have ever taken, and the only one that has done me permanent good." MRS A. CUNNINGHAM, Providence, R. I.

PORTLAND, SATURDAY, NOV. 9.

THE SUNDAY OREGONIAN.

Many Articles by Sound Thinkers and Clever Writers in To-morrow's Issue.

Try THE SUNDAY OREGONIAN this coming Sunday. If you do not already read it make it a point to see to-morrow why a multitude of people do read it.

THE SUNDAY OREGONIAN aims to be worthy as well as successful. It constantly endeavors to keep the respect of its readers. An other aim is that THE SUNDAY OREGONIAN shall be as agreeable as possible.

THE SUNDAY OREGONIAN is in the main bright, cheerful and companionable. In the issue for this coming Sunday ever so many matters will be dealt with and ever so many subjects handled. Particular mention may be made of contributions by

PROF. GEORGE EBERS,
Author of "Uarda," etc.

ANDREW LANG,
Author of "Talks with Dead Authors."

BRET HARTE,
The most popular American author of to-day.

E. H. HOUSE,
Formerly Professor of English Literature in the Royal College at Tokio.

FRANK G. CARPENTER,
The popular correspondent.

Here also is a topical index of the contents of the supplementary pages of to-morrow's OREGONIAN:

"JOSHUA" Chapter IX of Professor George Ebers' story of Egyptian Israelitish Life.
"A WAIF OF THE PLAINS." Don't fail to read about Clarence's experience treating the crowd in California.
"CASTLE TANDO." Part Second of Oswald Crawfurd's Charming Schoolboy Tale.
"JAPANESE ACROBATS." How They Appear in Their Native Land—Wonderful Feats Performed.
"SOME PSEUDONYMS." Noted Authors Who Have Used Nom de Plumes Tell How They Originated.
"YOUNG AMERICA OF TO-DAY." An Essay on Boys, Past, Present and Future, by Rabelais.
"FROM JOSHUA'S TIME TO OURS." The History of the Great Central Park Obelisk "Cleopatra's Needle."
"DRINKING AND GAMBLING." Frank G. Carpenter Tells of the Favorite Games and Tipples of Half the World.
"THE NICARAGUA CANAL." Views of a Merchant on the Prospects of the Canal.

There is said to be a large tract of fine timber land south of Alsea bay not yet surveyed.

The *Asterion* says over $2000 a day is now being expended for railroad work in Clatsop county.

The Ellensburgh *Register* gives notice that the editor is always "at home" to those who are "loaded for editors."

Kingston is the name of a new city to be platted on the Oregon Pacific where it crosses the North Santiam.

John C. Allen, a resident of Polk county since 1850, died at his home a few days ago. He was at different times a member of the Oregon legislature.

The glare of the electric lights up at Spokane Falls according to the Spangle *Record*, are quite plainly visible in the northern sky at that point, twenty miles distant on almost any dark night.

The president is only waiting for the arrival of Hon. Binger Hermann to make a lot of Federal appointments in Oregon. A good many anxious gentlemen in this state will speed Mr. Hermann on his way with their prayers.

A gambler was buried in Montana a week or two ago and next morning an anchor formed of playing cards, was found on his grave. Somebody seems to have thought the most appropriate way to deck his grave was to euchre deck it.

Henry Rinehart, register of the La Grande land office, states that no more filings or entries can be made until the vacancy caused by the death of the late receiver is filled. A memorandum of all business will be kept, but no final action will be taken in any case.

The Eugene *Register* says that the most quiet term of the circuit court ever held in Lane county has been in session the past week. Not a criminal case of any kind has been tried and all but a few of the cases were to recover money, and several of them were settled outside of court.

Mr. Joseph Holladay discovered yesterday that justice is not to be trifled with, though her sternness is tempered with mercy for the submissive. He was haled before Judge Stearns for contempt on his return to town, but escaped on $1000 bail, after paying his respects to the court. A compromise of the trouble in the will case is talked of.

The Linn county business council, Patrons of Husbandry, are taking a praiseworthy interest in their brother farmers of Wasco county who were left in straightened circumstances by the partial failure of the wheat crop last season. Hon. R. A. Irvine was delegated to visit Wasco county and inquire into the necessities of the farmers in that section.

It seems that Commissioner Groff is entitled to all the credit and must bear the sole responsibility for his recent savage attack on Surveyor-General Taylor in connection with the Umatilla reservation surveys. The senators from Oregon disavow all knowledge of the matter previous to the appearance of the commissioner's letter. The affair must be set down, then, as one of the mistakes of a new broom bent on sweeping everything before it.

Some of our contemporaries west of the Cascade mountains have been naming probable United States senators for Eastern Oregon. "We have so far," says the *Times-Mountaineer*, "not seen a single man named for the senate from Eastern Oregon by a single republican paper in this region. Republicans do not believe in nominating a candidate months before the day of election and then erecting the machine and calling into requisition the caucus rule to accomplish the desired result."

Samuel J. Tilden, careful financier and sagacious lawyer that he was, was unable to draw up a will that would stand the test of the courts. The clause creating what is known as the Tilden Trust, which provided for the establishment of libraries in New York city, has been declared void owing to the indefiniteness of its provisions. The lesson in this for wealthy men who have no direct heirs is to found such institutions as they desire to encourage themselves and not leave the work to their executors. The late W. W. Corcoran, of Washington, and Leland Stanford, of California, are notable examples of men thus situated who have given their personal attention to the distribution of their surplus accumulations, and it is a matter of record that these men have found their greatest pleasure in superintending the benevolent work that they have ordered.

A NEW ANECDOTE OF LINCOLN.

Joe Jefferson, the great actor, in his boyhood in 1839, made a trip West with his father and mother when Chicago had but 800 people. At Springfield, Ill., his father built a new theater which would have made him bankrupt, but for Lincoln. We quote:

A religious revival was in progress at the time and the fathers of the church not only launched forth against us in their sermons, but by some political maneuver got the city to pass a new law enjoining a heavy license against our unholy calling. I forget the amount, but it was large enough to be prohibitory. Here was a terrible condition of affairs—all our available funds invested, the legislature in session, the town full of people and by a heavy license denied the privilege of opening the new theater.

In the midst of their trouble a young lawyer called on the managers. He had heard of the injustice, and offered, if they would place the matter in his hands, to have the license taken off, declaring that he only desired to see fair play and he would accept no fee whether he failed or succeeded. The case was brought up before the council. The young lawyer began his harangue. He handled the subject with tact, skill and humor, tracing the history of the drama from the time when Thespis acted in a cart to the stage of to-day. He illustrated his speech with a number of anecdotes and kept the council in a roar of laughter; his good humor prevailed, and the exorbitant tax was taken off.

This young lawyer was very popular in Springfield and was honored and beloved by all who knew him, and after the time of which I write he held rather an important position in the government of the United States. He now lies buried near Springfield under a monument commemorating his greatness and his virtues—and his name was Abraham Lincoln!

Mr. Lowell to a Friend.
Philadelphia Ledger.

James Russell Lowell recently sent to an autograph collector in this state a lesson in grammar with the desired signature, as follows:

Pray do not say hereafter "I would be obliged." If you would be obliged, be obliged and be done with it. Say "I should be obliged," and oblige yours truly, JAMES RUSSELL LOWELL.

How long, you ask. Ah, well—
Why need the fair one tell her age,

HOME OF YOUR OWN.

THERE ARE a few facts for one who lives in Portland and contemplates making a purchase in West Portland and if well-considered you will be inclined ... You avoid city tax and water tax ... You get good pure air and get your meat at one half cost. You get good pure water, and live ... the malarial belt. Your pay ... and ... not on your lot and house each month will not ... You are simply ... to what your rent does now. You are ... your home by paying your rent you ... will have enough vacant room on your lot for a kitchen garden; you can keep chickens and a cow if you see fit to do so; you will not be compelled to live on the second or third floor and let your wife wreck herself with climbing up and down two or three times a day. You can do this, however, within the next 30 days. Get in on the ground floor at West Portland first, 0 in monthly payments of $10 and ... for a house which will make you ... independent in many ways and will increase in value more than ... one year. In comparison you are ... farther from West Portland with a motor road ... from Twenty first street to the bridge by street car.

CLOSING-OUT SALE.

West Portland pool lots must all be sold at once. Until Nov. 16th they can be had at $120, $10 down and $10 per month. They are worth double that amount. Make your purchase at once. Get a home on this beautiful elevation. Call for maps and full information on T. A. Wood, manager, room No. 1, I. O. O. F. Temple.

PORTLAND AND VICINITY.

A WEEK OF PRAYER.—A public union meeting will be held in the Tabernacle, corner of Tenth and Morrison streets, on Sunday at 3:30 P. M., under the auspices of the Young Mens' Christian Association. The meeting is to inaugurate the week of prayer, Nov. 10-17, for young men in all lands, observed by the Young Mens' Christian Association for the past twenty years. The meeting will be addressed by Rev. I. D. Driver, subject, "Moody at Northfield." Noel H. Jacks, state secretary of the Y. M. C. A. will speak on the work of the international committee. Good music has been arranged and will be rendered by a male choir, led by Wm. Wadhams, esq. Professor Wilder will preside at the organ, and Messrs. Boers and Insley will sing a duet. Everybody is invited. Meetings are to be held every night in the week at the association rooms.

A VERY STRONG COVERING.—The break in the cable road at the intersection of Fifth and Taylor streets, caused by the cistern there, will soon be completed. As the road runs over the cistern, it was necessary to put a new and stronger covering on it and a force of workmen were at work on this job yesterday. The arched top of the cistern was removed, a double layer of planks placed across the cistern, and upon this bars of railroad iron five inches apart, and the whole covered with a layer of concrete, making a solid covering of wood, iron and concrete strong enough to bear up any weight required and durable enough to answer all purposes. The yokes will now be put in, the cable conduit constructed and the tracks laid and the intersection placed in good condition.

WHEELS, WHEELMEN AND RACES.—"Senator" Morgan yesterday signed articles for a ten-mile race with A. G. Kennedy, the trick bicyclist, for $300 a side. The race is to come off on Saturday, November 16, on the new track being constructed in the old Mechanics' pavilion. Kennedy is backed by Merrill, while Morgan looks out for himself. The new track is about twelve laps long and has a uniform width of ten feet. A race between Morgan and Merrill will take place immediately after, the distance and money not yet being decided upon. The lady bicycle tournament, continuing six days, will open on the 18th. Among the riders will be Jessie Oakes, the champion lady rider of the world.

SHE WAS LUCKY.—Miss Elizabeth M. Thompson, who was elected by the school board last night to fill Miss Blackburn's vacated position in the Park school, had only arrived in the city about five minutes previous to her election. She had been expected, however, and will be ready for her new work Monday morning. Miss Thompson is an 1887 graduate of the High school, and has been teaching very successfully in LaCrosse, Wis. She is an old pupil of Professor Crawford's, in whose building she is now to work.

THE LAST DAY.—This is the last day of the dime menagerie in this city, as Colonel Winston leaves for San Francisco Monday morning. The children of the Children's Home are expected to attend today in a body, an invitation having been extended to them several days since. The menagerie, with its fine collection of animals, including the only three buffalos on the coast and a monster grizzly bear, has proved one of the popular amusement resorts in the city, and Colonel Winston has made many friends here.

AL HAYMAN VS. LEAVITT.—It has leaked out, on the authority of a gentleman on the inside of theatrical matters, that when M. B. Leavitt, of San Francisco, was negotiating with Manager Howe, Al Hayman telegraphed Manager Howe that he could not play any of his (Hayman's) attractions if he (Howe) tied up with Leavitt. This put a stop to the negotiations. Leavitt, therefore, is said to be looking elsewhere for a house, and hence the talk of his building a theater.

OUR SATURDAY BOOT AND SHOE SALE.—Ladies' grain button shoes, $1 25; ladies' A kid button, $1 35; ladies' glazed Dongola button, $1 90; men's veal calf shoes, $1 70; men's B calf dress shoes, $2 20; men's calf shoes in button, lace, congress, London and plain toes, $2 50. We also will sell, to-day only, natural wool underwear at $1 50 a suit, all wool striped at $2 a suit; and also a line of men's chinchilla coats and vests at $7 50. E. Meyer & Co.

GILMORE EN ROUTE.—Manager Howe went down to the Northern yesterday to meet the Gilmore band and see them off to San Francisco. He stated to a reporter that his receipts from their Tacoma and Seattle engagements combined exceeded those of the Portland performances. Mr. Howe disclaimed any knowledge of M. B. Leavitt's proposed theater, but said he had no doubt that another opera house would be built here.

ORGAN RECITAL.—The dates for the organ recitals at Grace M. E. church have been changed to Monday and Tuesday evenings, November 18 and 19. Music lovers are looking forward to these recitals with a great deal of interest. To see and hear such an organ, and to listen to the playing of Professor Ryder, will be a pleasure that no one can afford to miss.

NO DELAY.—Prof. G. L. Eastman announces that from this on there will be no delay in finishing photographs at any of his four galleries. He will for a short time make first-class cabinets at all of his galleries, located at 282 First, above Jefferson; 169 Third street; East Portland and Albina, for $2 50 a dozen.

SATURDAY'S SALE.—Ladies' English cashmere hose, all wool, 25 cents a pair. Children's French cashmere hose, pure wool, 25 cents a pair. Ladies' heavy merino vests and drawers, finished seams, 50 cents each. Ladies' scarlet lamb's wool vests and drawers, $1 each. Ladies kid gloves, all sizes, 50 cents a pair.

SERVICE FOR YOUNG MEN.—A service for young men will be held in the First Presbyterian church, Tenth and Alder streets, Sunday evening. Professor Merschkul is preparing some special music for the occasion, and Rev. Arthur J. Brown will preach a sermon to young men on "Dangerous Reefs."

The professor will make the ascension, with his new balloon, from the East Side landing of the Jefferson street ferry at 2:30 o'clock to-morrow afternoon.

WOODSTOCK.

The last act of the preliminary arrangements for the construction of the Waverly Woodstock electric motor line was completed last night at the meeting of the city council of East Portland by the granting of a franchise through the streets of East Portland to the Thompson Hueston Electric Company, of Boston, Mass. This positively assures the construction and operation by the above company of this valuable line. All property on this road will increase in value very rapidly, and to those lucky ones who have pinned their faith on the construction of this line a rich reward is sure. The Teller & Stearns Real Estate Company will place Woodstock on the market Monday next, and they predict it will be the best selling addition on the market.

BRIEF MENTION.

Gilmore Concerts.—Gilmore, in his three grand jubilee concerts in this city, used one of the famous Decker Brothers' pianos, purchased from The Kohler & Chase Music House. The firm are sole agents in the Pacific Northwest for the Decker Brothers. The Kohler & Chase Music House put the piano on the market as one of the best instruments in the world, and they point with pride to the fact in nearly every concert that has been made in the Northwest during the past two years the piano has been used to the exclusion of all others.

PORTLAND, SATURDAY, NOV. 9.

MONTANA A STATE AND REPUBLICAN.

When a grave emergency exists, the president is capable of prompt action. He has lost no unnecessary time in issuing the proclamation which completes the admission of Montana. The territorial canvassing board completed the count of the vote on constitution and state officers last Monday, and probably sent it to Washington, together with a properly certified copy of the constitution, by the first train The abstract of the canvass and the constitution cannot possibly have reached the president before last night, and his first official act this morning was to sign and publish the proclamation

This prompt and decisive action clears the Montana political air wonderfully It carries into effect the will of almost the entire people of Montana, as expressed at the last election, by making the territory a state It carries into effect the expressed will of an undoubted majority of the honest voters of Montana by making it a republican state It puts an end to the quibbles and devices of the democratic territorial judges, and gives *prima facie* legality and authority to the act of the canvassing board. The whole attempt to alter the legal canvass of the votes on candidates for the legislature through the courts falls to the ground with the proclamation of the president. The territorial judges, officers of election, state canvassing board and all become *functus officio* in a moment. The whole fabric of territorial government falls to pieces at once, and a complete state organization takes its place. Before ceasing to exist, the territorial canvassing board and local election officers completed their work by canvassing the votes cast and making return to the president. The termination of the official existence of the territorial judges, on the other hand, arrests in the middle the work on which they were engaged, which was to unsettle the canvass and reverse its results That work the paralysis of the powers of the territorial government happily leaves unfinished. Therefore Montana comes into the Union as a state with her congressman, all her state officers except governor, and a majority of both houses of her legislature republican on the face of the returns.

It is interesting to review the steps of the political and legal contest brought to so sudden a termination by the president's act The first move in the territorial courts was inspired by the action of the county canvassing board in Silver Bow county, in throwing out the fraudulent votes cast in the famous Tunnel precinct, No 34. This changed the majority in the legislature from democratic to republican. The democratic candidates thus dispossessed applied to Judge De Wolfe for a peremptory mandamus ordering the county canvassing board to count the votes of precinct No 34. Judge De Wolfe, who was appointed by Cleveland and overlooked last spring, promptly issued the mandamus. Counsel for the county board as promptly appealed to the supreme court and moved a stay of proceedings Pending the hearing of argument on this motion, the territorial canvassing board met and counted the votes returned to them by the county canvassing boards, including that from Silver Bow county, with precinct No 34 omitted. Then it adjourned sine die and its return went to the president. Two days after, Judge De Wolfe rendered his decision denying a stay of proceedings and making his mandate to the Silver Bow county board peremptory The county board obediently counted the Tunnel precinct votes, but the territorial board had adjourned and there was no place to return it to.

Plump into the midst of this perplexing situation comes the president's proclamation, stopping all territorial proceedings, judicial or otherwise, and perpetuating the political status in Montana at the moment the proclamation issues. The new state government goes into effect as it appears on the face of the returns made by the territorial board to the president. That is to say, the legislature is *prima facie* republican, and is itself the only judge of the qualifications of its members The democratic claimants from Silver Bow county may take their case before the legislature, but they have no more standing in court, or, to be more exact, the court itself has no more standing, having been blown away by the breath of the president's proclamation. In due time undoubtedly the Montana legislature will take up the case of the Silver Bow contestants, discuss it dispassionately and decide it fairly But we have a distinct impression that the first two senators from Montana will be republican.

A MODERN TRAGEDY.

A variation pleasing for its novelty, in the causes which lead susceptible youth to commit suicide is reported from Springfield, Ill Usually it is the seductive and fickle damsel that drives the poor youth to desperation, and furnishes cause for a double tragedy, since it is well known that it is a part of the desperately forlorn young man's creed not to allow anybody else to have her, if he cannot. In this instance, however, it was the cruel and unreasonable paternal parent who was instrumental in cutting short a young and promising life The father of Fred Devares, a non-progressive man who, it appears adheres rigidly to the old fashioned idea that a boy ought to keep good company, and not go nutting when he is set husking corn carried his iron clad ideas into effect a few days ago by chastising the boy for persisting in evil associations. This indignity was inflicted on Friday evening, and to add to the cruel wounding of the youth's proud and sensitive spirit, he was on the following day introduced to the corncrib by his prosaic father, with orders to "shuck corn" for his Saturday's pastime

The "nuts in brown October's wood," as Whittier poetically expresses it, were waiting to be gathered and the boy's forbidden comrades were waiting for him to join them in the sport of gathering them Even the squirrels seemed to call upon him to defy the commands of his stern father and when to this was added the seductive whistle of his interdicted comrades, Fred bade a hasty adieu to the corn crib and with the impatient and not inappropriate exclamation of "shucks" upon his lips he left his task and betook himself to the woods Upon his return after a glorious day his irascible parent again punished him for disobedience, and the outraged youth, after taking his girl home Sunday evening, confided his watch and ring to her keeping left his over coat with her to deliver to his father, presumably to make him "feel sorry" and remarking tragically "father has punished me for the last time," he drew his pistol and shot himself in the temple dying within a few minutes This comes from an arbitrary parent insisting upon applying Eighteenth century rules to the management of a Nineteenth century boy It is bad enough to expect a youth of the period to eschew bad company, but when it comes to chastising him because he will not the limit of outrage is reached bad enough to put a boy of modern aspirations at work at a plebeian vocation, but wholly inexcusable to punish him for not staying by his task When fathers learn that a boy of proper spirit will die before he will work they will hesitate before laying such cruel commands upon their impetuous young sons as those which caused the death of the Springfield youth, and thus give the boy a chance to live until he catches some provoking and ungrateful girl, to whose company he claimed an exclusive right, walking home from church with the "other fellow."

Any vulgar, low-born lad can tie his other shirt in a bandana, slip out at the attic window and go out in the wide world to earn his own living when his father's commands irk him, but the æsthetic youth who has a character to maintain prefers death to dishonor and has recourse to the ready pistol as the proper means of ending such woes

We trust that the sorrowful lesson that this Springfield father has received will be a warning to the self-willed parents of sensitive boys who insist upon bringing up their children according to the obsolete methods endorsed by Solomon, Ben Franklin and the Puritan fathers

THE GOVERNMENT AND THE CHEROKEES.

Our dispatches yesterday announced that Chief Mayes denied the right of the United States government to interfere with the Cherokee nation in the matter of accepting or rejecting the offer of the cattle syndicates for a lease of the Cherokee strip The facts are these The "Cherokee strip" contains 6,024,239 acres For this the government has formally offered $7 530 300. An offer at the same rate—$1 25 per acre—was accepted by the Creeks and Seminoles for the Oklahoma lands adjoining these now to be purchased The present lessees, the Cherokee Strip Live Stock Association, offer, according to Secretary Noble, $200,000 a year for five years $400 000 for the next five, and $720,000 for the third five A Missouri syndicate is reported to offer to rent the strip for fifteen years, at not less than $200,000 a year. These various syndicates are trying to tempt the Indians to reject the offer of the government, by pretending that they will ultimately purchase the fee of the lands for $18,000,000—a fraud on the face of it, since they now propose to give in cash only $200 000 a year for the first five years Five per cent. on the price of the option at $18 000,000 would be $900,000 a year. These offers are made to induce the Cherokees to reject the government offer The Washington correspondent of the New York *Sun* points out that 'it would be easy, at the end of five years, for the syndicate to throw up its lease, refusing to go on at $400 000 or any other sum above $200,000, and, either by dissolving the corporation or claiming a non-fulfillment of contract, to throw the matter into litigation, from which the Indians would be glad to escape by simply annulling the lease or continuing the old low rental."

In view of these facts the interior department has been entirely justified in ordering the present lessees to quit the tract on or before June 1, 1890 Secretary Vilas, more than a year ago, notified Chief Mayes that any lease he might give would be "subject to cancellation and any use or occupation by any lessee to termination, by the department, whenever such action should be regarded proper by the president or the department, and would be subject to any legislation whatever, general or special, which congress may enact, affecting that portion of the Cherokee country, or the occupancy of any Indian lands for any purpose whatever, whether for grazing, pasturage, or otherwise" The present lessees temporarily renewed their agreement subject to this notice, which is based on the fact that the United States has, by the treaty of 1866, certain rights to purchase the tract at a price to be agreed upon, for certain special purposes

The Cherokees are now only getting $200,000 a year for the very same land which the government offers to take of them at a price yielding $365,150 a year Chief Mayes is in business a fool, and in law a rebel when he defies the United States, for he and his tribe are practically nothing but the wards of the government. The land was originally set aside for the use of friendly Indians The government has not settled any Indians on it, but does not propose that the Cherokee nation should, for an indefinite period, continue to lease it to cattle syndicates to the exclusion of homesteaders For this the government has exercised its right of eminent domain by excluding the syndicates and canceling the leases

A CASE IN POINT.

THE OREGONIAN in its issue of the 1st inst expressed the positive opinion that the bill prepared by Representative Houk of Tennessee providing for the control of congressional elections by Federal power, was not a practicable measure of legislation. Such legislation would, of course, have to be uniform and apply to Northern as well as Southern states. The president could not in his execution of such a law supervise elections in South Carolina or Mississippi without doing the same in Oregon or California It is doubtful whether any state at the North would be willing to commit its elections to the charge of Federal officers. There would be no public opinion to support such a measure at the South, and probably no substantial public opinion to support it at the North In these circumstances the measure referred to would fall to the ground between the stools of both parties and both sections But dropping the Houk measure and pursuing our search for remedial legislation for the outrageous denial and suppression of popular suffrage in the South, of which the Virginia election is the latest object-lesson, we are told that congress has been cut off from any attempt to exercise general police power of any sort within the states for the protection of the negro in the enjoyment either of his civil or political rights, unless they are assailed by state legislation In his review of the Cruikshank case Chief Justice Waite decided that no attacks on the negro of any description, by individuals or combinations of individuals, which are not authorized or directed by state statutes, afford any ground for Federal interference, or are punishable anywhere but in the state courts In other words the thirteenth fourteenth and fifteenth amendments simply protect the negro from hostile state legislation For protection against attacks on his person property or liberty by individuals he has to rely wholly on the state courts and police But another decision, in the Yarborough case, allows that congress has the power to protect negroes as all other citizens, in the exercise of the suffrage at all elections of Federal officers, and that a conspiracy to threaten intimidate, or hinder a negro, or any citizen, on such occasions would be indictable and punishable in the Federal courts The court held that at all such elections ' congress has the power to protect the act of voting the place where it is done and the man who votes from personal violence and intimidation, and the election itself from corruption and fraud " Under these decisions the republican party could take charge by legislation of the election of members of congress and of presidential electors, but as we have already pointed out, such legislation would quickly fall to the ground for a lack of public opinion behind it either South or North What then remains to be done?

Nothing apparently except to enforce the second section of the fourteenth amendment to the constitution in the next apportionment of congressional representatives The enforcement of this section would deprive the South of representation for its disfranchised citizens in the house of representatives and the electoral college The first section of the fourteenth amendment which makes the negroes citizens has been nullified by the South, by denying the negroes rights of citizenship and refusing them the equal protection of law, but the South cannot nullify the second section of the amendment, if the republican party chooses to enforce it in making congressional apportionments. This would seem to be the only practical remedy, for the proposition to have a Federal election law for every district is denounced as unstatesmanlike and unjust even by staunch republican journals both East and West, like the Boston *Journal* and the Milwaukee *Sentinel*. But the reduction of representation would be a just punishment and constitutional, because it is only a wretched quibble for the offending state to answer that the negro is robbed of the suffrage not by the state, but by the lawless action of a large number of people comprising the democratic party in that state This answer no more acquits the state of the responsibility for the wholesale denial, suppression and stealing of the suffrage, or relieves it from liability for the constitutional penalty for this wrong, than if the state passed a law making horse stealing a crime and then deliberately refused or omitted to punish anybody for horse stealing. The state takes no measures to prevent or punish the suppression of the suffrage but on the contrary, Governor Lee, of Virginia, this very week, used his power and opportunity to hold the white militia of the state in leash, ready to slip these dogs of war upon the negroes if they resented the application of the machinery organized to suppress, or rather to steal, their suffrage by obstructing the polls or sponging out their ballots when cast, either by stuffing the boxes or counting out the votes The state, by allowing the nullification of the Federal law and by granting immunity from arrest or punishment to its violators becomes responsible for the nullification, and therefore liable for the constitutional punishment provided in this case.

The state cannot clear itself of responsibility by the quibble that the perpetrators of these crimes against the state are not the state, and the state cannot suffer for their crimes The perpetrators of these crimes are the state, for they control the state, they make its laws and its courts, they elect its governor and make all the subordinate executives of the state law, and the state by refusing or omitting to vindicate its own laws, or in any way attempting to vindicate them by the arrest, trial and punishment of the violators of law, or by placing any guard over the ballot box is not merely *particeps criminis*, but absolutely the criminal, who has continued and executed the crime by procuring and permitting the nullification of its laws

The state of Virginia was restored to its representation in the Federal congress by agreeing to certain conditions preliminary to this restoration The state has really broken its contract, for to pass a law and then grant immunity from punishment to all who chose to violate it is clear nullification on the part of the state, and the state cannot shirk the consequence of its fraud by reading the law, whose nullification it has courted and procured, in answer to the charge of suppression and denial of the suffrage. To make horse stealing a crime and never to punish a horse thief or attempt to punish him, is exactly the situation of Virginia to-day, when as a state, she denies her responsibility for the suppression of suffrage and her liability for the punishment provided in shape of reduced representation,

WHY WAIT A WEEK?

The gentlemen at Olympia have settled quietly down to wait for the president's proclamation, having come to the conclusion that their case is not such a grievous one after all The legislature is in legal session under the enabling act, and has only to keep its latent powers alert by adjournment from day to day until the state is proclaimed to become a legal legislature in regular session, beginning, as prescribed by the constitution, on November 6, under the state constitution All doubts on this point disappeared as soon as the members of the legislature stopped to think and Governor Ferry stopped stirring the muddy waters of constitutional hypothesis The legislature now seems to understand that it will be in regular session and perfectly competent to do business as soon as the president's proclamation issues In the meantime it may elect senators under the enabling act or twirl its thumbs under the declaration of independence So far it has preferred to twirl its thumbs It is beginning to occur to some members however, that if senators are not chosen at once the election may be postponed for two weeks or more The election can be held now under the enabling act. After the state is admitted it is assumed that elections must be held under the general statute, which provides that balloting for senators shall begin on the second Tuesday after the organization of the legislature Of course the legislature cannot be organized until the state is admitted If the above assumption is correct, then the election cannot be held, under the general statute until the second Tuesday after the proclamation issues It is now thought that the proclamation will come out Monday afternoon though it may not come till Tuesday The legislature stands adjourned till Monday at 1 o'clock So unless it elects senators that afternoon, statehood will probably catch it with the work undone In that case, if the general statute is to govern, the balloting can not begin until the following Tuesday But surely it is competent to inquire if the enabling act, providing for the election of senators in certain ' proposed states" in a certain way does not supersede in those particular cases the general statute made and provided for such cases, why may not senators be elected under the enabling act any time next week, even if statehood has been declared The proclamation does not annul the permission given to elect senators "any time after the adoption of the constitution " nor does it alter the special emergency that permission was intended to meet It is still important to elect senators as soon as possible Congress meets in a little more than three weeks, and it takes a week to travel from here to the seat of government That leaves only two weeks which might easily be consumed in balloting It is important not to lose any time The constitution expounders will do well to consider whether it is absolutely necessary to place the general statute above the enabling act and wait a week after organizing before choosing senators

A VETERAN FARMER'S REMARK

In an address delivered recently before the Interstate convention of grangers, Colonel Victor Piollet, a veteran farmer of Pennsylvania remarked

Agricultural production cannot be made with a profit with labor at the price it is paid in America in competition with similar products which are made in foreign countries at the price paid for labor there

The cost of agricultural labor in the monarchial countries is not more than one fifth of the price paid in the United states and the only possible way the American farmer can compete with the foreign production would be by reducing the cost of labor in this country This cannot be done, nor is it desirable that it should Agriculture has a right to be protected to the same extent that the manufacturing industries are, through the agency of our national revenue laws

But tariff reform" of the brand now current always insists that producers in the field, forest and mine are not entitled to protection and that the benefits of protection should be reserved for manufacturers alone That so many Eastern journals take this position is explained by the fact that those journals 'are located in the cities which are the consuming centers ' and therefore they will resort to misrepresentation whenever there is a discussion that involves the interests of agriculture ' We quote further from this address

The most specious method of assailing the agricultural people is to incite the manufacturing class to ask that the protection given them through our revenue law shall be withheld from the cultivators of the land. Free raw material, it is claimed will enable us to extend the markets of our manufactured products. This fallacy is insisted upon by the free trade press of the cities in the face of the statistical record of government.

Cotton is a free raw material at the command of American manufacturers. The cotton mill and cotton field are side by side, and yet but a fraction of our annual cotton production is manufactured in this country The vast amount of cotton is taken to foreign countries, made into fabrics and sold in our markets for less price than it can be manufactured at home. American manufacturers cannot compete with foreign countries until labor and capital are as cheap in this as in foreign countries. The leather manufacturers have free hides and skins, and with this favoritism to these men and rank injustice to the cattle men, we import more leather and the manufactured products of leather than we export.

People of the rural districts last year were not slow to see that the "tariff reform ' proposed by the democratic party was a blow at their interests Hence throughout the rural districts there were almost uniform republican gains. It was the farmers who defeated Grover Cleveland and the democratic party in 1888

Reports of suffering and destitution in North Dakota, supplemented by similar reports from South Dakota, have appealed strongly, within the past few weeks, to the sympathies and aid of people more fortunately situated The number destitute of food, clothing and fuel for the winter that is already upon them, has been computed among the thousands. To partially supply the need of fuel—a most pressing one in a treeless region, where the mercury falls to 30 degrees and 40 degrees below zero and remains in that vicinity for days together, while a fierce northeast wind sweeps the plains—Secretary Proctor has granted permission for settlers to cut wood from government timber on Fort Totten military reservation upon such conditions as may be agreed upon by the post commander and a board of commissioners to be selected from each of the counties wherein such suffering exists The permission is restricted to fallen timber, dead standing timber and such trees as may be cut with benefit to the growth of those remaining. Now, however the Dakotas, proud possibly of their new dignity, deny that destitution exists to any considerable extent in either of the two new states In reconciling these discrepancies of statement it is only necessary to remember that the former was made by people who care more for securing the personal comfort of destitute families than for upholding the name of Dakota as a synonym of abundance and good cheer, The protest of the "boomer" was a thing to be expected

Ex-President and Mrs Cleveland, being in Washington to attend the Bayard Clymer wedding, took occasion to call at the White House where, as we are reliably informed, they behaved graciously and even good naturedly This is inconceivable It was certainly incumbent upon the former to indulge in sarcastic remarks relative to the president's official acts and intimate broadly that things would have been run in a manner vastly more creditable to the nation if the election of last November had resulted differently, while Mrs Cleveland should have gone about with her nose in the air inspecting closets and criticising Mrs Harrison's housekeeping generally It is tolerably clear that this thing that people call politeness is only another name for deceit and that it is fast destroying our national character for disingenuousness

The unexpected capture of the legislature is an apple of Paris to the Ohio democrats. It has brought the wildest discord into their ranks Every Ohio democrat with any title to prominence, from Colonel Brice down to young Thurman is a candidate for the seat of Senator Payne A repetition of the old fight of six years ago is expected and it is possible that Brice may rival some of the ancient boodle achievements of the man he hopes to succeed

Miss Caldwell who was about to become Princess Murat, but chose to forego that distinction rather than surrender control of her fortune, will sail from Havre for the United States on the 9th inst. The young woman has acquired all of the notoriety that attaches to a semi-royal marriage without any of the accruing disadvantages. Hence she ought to be satisfied with the result of her European trip if she is not.

The republican party in Virginia makes a new application of the military maxim Divide and conquer Having gotten itself beaten 40 000 votes when united it proposes to split itself in twain again and see what they can do in that condition John S Wise comes to the front again as the leader of the secession from Mahone The republican party in Virginia is not a credit to the national organization

THE FIGHT FOR TEMPERANCE.

Annual Session of the W. C. T. U.—Addresses by Frances Willard and Others.

CHICAGO, Nov 8—The sixteenth annual convention of the National Woman's Christian Temperance Union met here this morning, with 400 or 500 delegates present from all parts of the country The morning session was devoted to the reading of the Scriptures and prayers.

The majority of the convention are strongly in favor of an alliance with the third party, yet cannot conceal their anxiety as to the attitude of the minority, who believe in non partisan action If the Iowa union withdraws the breach will be irreparable Last year the national officers claimed 10 000 local unions, with a membership of 200,000 To-day the official report showed 7000 local unions, with a membership of 142,168. Among the number which have withdrawn are such unions as Minneapolis Cleveland and Chester county, Pennsylvania, the latter comprising six y unions. Such startling figures disturb the equanimity of the organization, and this evident disaffection has made a strong impression

The afternoon session was devoted to the business of the union, the usual committees being appointed and the reports from the executive committee, treasurer and other officers read.

Miss Frances E. Willard, president of the society delivered her annual address to-night. In beginning she said that patriotism had always been a part of her religion, and continued You are in Chicago. The Cronin murder trial is in full blast. The national flag was hissed and the red flag of the commune applauded not far from here but a few weeks ago The experiment of a free government in our large towns and cities is a failure. America has become the dumping ground of the European cities. Immigration has steadily deteriorated in quality as its quantity has grown To-day we have a hundred thousand anarchists among us. The multiplication of conventions, enormous accumulations of capital, corporate combinations and the octopus grip of trusts render our wage-workers uneasy.

She then proceeded to attack the old parties and to commend prohibition.

Miss Willard recommended that they ask congress to pass an amendment to the interstate law prohibiting the bringing of alcoholic liquors into prohibition states, also that they work for the Blair educational bill and the Blair prohibitory amendment to the national constitution

Brief addresses were made by General Neal Dow, Mother Stewart, of Ohio, Mrs. Judge Foster, president of the W C T U. in Canada, and Miss Mamie Phelps, of Toronto

Mrs. Caroline D Buell, corresponding secretary of the society, read an extensive review of its work during the past twelve months. 'This has been a year made memorable by defeats " added Mrs Buell. "First New Hampshire refused to make prominent the prohibitory law Massachusetts then followed, and by a majority of 46,626 stepped down from the lofty pinnacle of reform and gave herself in passive obedience to the liquor oligarchy Our hopes, if we had any, were centered on Pennsylvania, only to be met by defeat, and Rhode Island, brave 'Little Rhody,' where the W. C T U had left no stone unturned, had found no task too hard, was stabbed in the home of her friends and Connecticut, with all her ancient traditions her religious history, was given over to the powers of darkness by the tremendous majority of 27,535 But our defeats should teach us the lesson that some time there will be no longer defeats, but glorious victories.

THE STORM IN NEW MEXICO ABATES.

Many Lives Lost, and Stockmen Suffer Tremendous Losses

CLAYTON, N M, Nov 8.—The storm has abated, and for the first time in nine days the sun is shining While no authentic reports have been received concerning the losses of life, reports come in that several Mexican herders were frozen on the Leona a small creek, twenty miles south of town No communication has been had directly and the mails from the different postoffices inland have not arrived. Some apprehension is felt concerning the Tramperas mail driver, who should have reached Clayton last evening, but has not as yet appeared. A telegram from Grande to-night gives another case of freezing, that of Joe Martin a cowboy, who was employed with others in holding a herd of cattle near that point. His horse gave out with him, leaving him on the prairies eight miles from the nearest house. This he endeavored to reach, but was overpowered and frozen after walking only a short distance. He belonged in Raton New Mexico The depth of the snow cannot be correctly estimated. A snow plow, pushed by four engines, was stopped by the drifts two miles north of town to-day, and only after eight hours of shoveling was released. The trainmen report much difficulty experienced in the different cuts which in some places are completely filled with dead cattle and sheep The loss in both is tremendous. Old cow men say that with the present depth of snow, the stock will be unable to live for any length of time, and unless the cold weather moderates and the crust, which has formed on the snow, is loosened, the mortality among the cattle will be tremendous Among the stockmen who lose heavily are Carlisle Bros, of Durango Col. who turned loose 1060 head with forty three horses, and three Pecos river companies, with 2300 steers Many of the horses were found frozen Several cowboys who drifted off with the herds have not been heard from, and rescuing parties are looking for them and will return to-morrow Fuller particulars, which must be of a sad nature, will be received here in a few days.

TROUBLE ON THE GREAT DIVIDE.

A Hurricane Reported in Colorado, and Many Trains Snowbound

DENVER, Colo, Nov 8—A Pueblo special says Railroad men report more trouble on the divide to-day The wind is blowing a perfect hurricane, and the cuts are filled with snow All the trains are blocked again, and the Fort Worth has stopped altogether Information has been received showing that the situation there is much worse, as another great snow storm is raging, evidently in the Raton mountains.

THE CARMICHAEL FAILURE.

Affairs of the Wall Paper Manufacturer in a Complicated Condition

AMSTERDAM, N Y Nov 8—The affairs of Daniel Carmichael, the wall paper manufacturer of Amsterdam are said to be in a desperate state He has conveyed all his property to his brother, Mayor John Carmichael, for $91,000 The latter endeavors to meet Daniel's obligations but as much of the paper maturing proved to be forged he declined to accept any more of it The indebtedness will, it is said, be about $ 20,000 The forgeries approximate $70 000. The name of John McFarlin knit goods manufacturer is found upon much of the paper but he denies putting it there It is said that over $32 000 of the forged paper is on H W Craig & Co , paper manufacturers of New York

THE CREDIT MOBILIER OF AMERICA.

A Final Settlement Reached With the Commonwealth of Pennsylvania

PHILADELPHIA Nov 8—A special to the *Press* from Harrisburg says The long pending litigation against the Credit Mobilier of America was practically brought to a conclusion to-day by the payment into the treasury of $40 000 in settlement of the commonwealth's claim for taxes due for the past eighteen years The Credit Mobilier Company has here of ore returned a capital stock valuation for taxation purposes at the nominal sum of 60 cents a share claiming that it had gone out of business years ago, had no tangible assets and was in fact, a moribund corporation preparing for early dissolution It admitted its liability of about $1000 as the total amount due the commonwealth, The state officials did not accept its views, and in November, 1888, suits were brought in the United States circuit court at Philadelphia, and subsequently in the superior court of Massachusetts, the Union Pacific railroad was made defendant, the commonwealth claiming that the latter corporation, as the owner of all the shares of the Credit Mobilier of America, had in its possession valuable property subject to taxation The adjustment was finally reached upon a basis of 20 per cent., being the last market price of the stock, resulting in a settlement as above stated.

ABOUT PRINCE HATZFELDT.

He Stands Very Well in the Opinion of His Father-in-Law.

NEW YORK, Nov 8.—When C P Huntington arrived from Europe he was interviewed concerning the marriage of his adopted daughter to Prince Hatzfeldt. ' You may be sure,'' said the millionaire "that before I consented to this marriage I made searching inquiries into the prince's character and habits, and the thousand and one stories are more or less exaggerated or false that have been put in circulation about him, and I finally came to the conclusion that in spite of his many faults and follies, which after all are only what might be looked for in any young man who had been spoiled by over indulgent parents and had no limit placed upon his whims and caprices he is at heart a thoroughly good fellow likely to make an excellent husband to any woman who can control and influence him in the right way I confess that I would sooner have had my daughter married to an American but she was determined to have the prince and as I could see that they were dearly attached to each other I would not stand in the way. His liabilities are comparatively small and will easily be settled. I wish he had a cleaner record, but he is a bright man of many and varied talents and will doubtless make my daughter happy The question of settlement was never discussed between the prince and me. The sum which the princess receives as her dower is no more nor less than what she would have taken if she had married a Connecticut farmer"

TURKEY'S SUPREMACY IN CRETE.

The Government of Greece Will Not Recognize It.

ATHENS, Nov 8.—The government organ asserts that at a recent dinner at the British legation, Count Herbert Bismarck told Premier Precoupis that Germany unreservedly recognized Turkey's sovereignty in Crete, and that it behooved Greece to accommodate her policy to the peaceful efforts of the great powers. Precoupis, it is said, frankly replied that Greece recognized Turkey's rights in Crete in just the same measure as the powers recognized Turkey's rights in Egypt, Cyprus, Roumelia and Bosnia, and therefore would not limit the freedom of her policy by binding promises.

DESTITUTION IN HALIFAX.

Owing to the Failure of Fisheries, Many Persons Are on the Brink of Starvation.

HALIFAX, Nov 8 —The reported distress among the fishermen at Torence bay and Lower Prospect, West Halifax, is confirmed. Nearly half the population in each village is on the brink of starvation, owing to the failure of fisheries. Twenty or thirty families in each place, numbering nearly 200 persons, have consumed every scrap of food they could obtain Provisions will have to be sent to them or many will undoubtedly perish

THE OMAHA & PIERRE.

A New Railway to Be Built Connecting the Two Cities.

ST PAUL, Nov 8 —A Pierre, S. Dak., special to the *Pioneer Press* says The Boards of Trade of Omaha and Pierre have united in forming a new railway company to build a line between the two cities. The road will extend up the Sioux river from Yankton to Pierre via Mitchell, and will be called the Omaha & Pierre railway. It is expected to complete the line by the 1st of July.

THE SUGAR TRUST DECISION.

The Decision of the Supreme Court Was Expected and Prepared for.

NEW YORK Nov 8.—There was a report around town last night that the sugar trust people anticipated, in general terms, the decision of the supreme court and that they intended to shut off application for a receiver for any more of the New York refineries. The members of the sugar monopoly are ready with papers which completely reorganize the trust.

New Mexico Anxious for Admission.

SANTA FE, N. M., Nov. 8.—The president of the state constitutional convention, under a resolution adopted by that body, has appointed a list of citizens to represent New Mexico at Washington when congress meets this winter and work for the admission of the territory About 200 citizens are to be on the commission, and most of them will be on hand at the opening of congress They will ask first for admission and second for some action by congress looking to the settlement of the land grant titles in this territory

MORE TAXES IN SIGHT.

The increase in the valuation placed by the assessors this year on a great deal of property brings without a prospective blessing to the schools. It is thought probable that instead of the estimated $53,725, there will be $60,000 in the school tax. The county's assessment is $1,500 000 more than last year, still a great portion of this raise was made in East Portland suburban property. One property assessed last year at $60 000, this year is down at $161,000. It is thought, however, that there will be a substantial increase in property subject to school district No. 1.

To meet present needs a loan of $1000 was accepted from the Bank of British Columbia.

THE GAMBLERS WERE NOT PRESENT.

When the Cases Were Called Yesterday, But One of Them Showed Up.

Although a long list of names appeared on the police transcript yesterday but a few gamblers appeared in the dock at the usual afternoon session of court. The majority of the names were those assumed by the gamblers who were placed under arrest the evening before and as was expected, all of them preferred to forfeit their bail rather than contest their cases and run the risk of exposure. The four dealers giving the nom de plumes of William Marshall, John Becker, Frank Strong, and Ah Ling forfeited $100 each, and the others—Gus Hanson Harry A …, William Harris, John Wilmot, John …, Rosenthal George Davis, John Davis, … Ah Sing and Joseph Mott forfeited $25 each. This enriches the city treasury to the extent of $… During the session of court a number of the gamblers were seen standing on the opposite corner of the street, keeping their eye on the jail back… ing, "all the same Pasco."

PROTECTION TO SHADE TREES.

House Movers Have No Authority to Cut or Limbs or Otherwise Disfigure Them.

The case of W L Owens, the house mover, charged with cutting the city shade trees … moving a house by park row occupied … hours in the police court yesterday afternoon. The case involved legal problems as aff… the rights of house movers, after being f… with the necessary permits from the city superintendent of streets that are not covered by … ordinances.

Owens had obtained a permit to move a certain dwelling. Its dimensions were such that … not be moved up East Park street without … off a large limb that stood in the way and … enterprising house mover took upon himself the responsibility of removing this obstacle … consulting the city superintendent of streets … the street committee who are supposed to be … ing guardians of the city parks.

City Superintendent of Streets W S Chapman contended that the right to move a building … not carry with it the right to cut … shade trees along the route of transit …

The defense endeavored to show that the … tion of the limb cut off did not come … ordinance which requires limbs … be a certain distance from the curb … tend over the edge of the … fined limits and that instead of disfiguring … tree the removal of the limb improved its appearance.

Ben Woods a member of the fire department who claims to have had experience in … limbs testified in behalf of the defense. He said that the limb was not any thicker than his wrist and that its removal did not detract from the appearance of the tree in the least.

William Connor deputy superintendent of streets, rather disproved this assertion by bringing the limb into court. It measured … inches in diameter.

Councilman Farrell was another witness for the defense, and in his opinion the tree had been neither injured nor disfigured by removing the limb.

Mr Chapman would not take it upon himself to say positively that the tree had been damaged, as that was largely a matter of taste and judgment with different people. He did state, however, that the trees had been pruned and trimmed in the spring, by a competent man who is hired by the city, and that as far as he knew, the work was … satisfactory. If every one is allowed to … on this work by cutting the limbs to suit their own individual tastes, either to enable them to move a house through the streets or to satisfy an æsthetic whim, where would it stop? he asked. He believed that no one had a right to assume such authority, whether it led to any degree of injury to the trees or not. The proper thing he suggested, for a man to do, in a case of this kind is to see the city superintendent of streets, who would lay the matter before the street committee and they could give the proper advice in the premises.

The case was argued at length by City Attorney Adams and Charles Petrain counsel for the defense and the court rendered a decision against the defendant fining him $10.

This is not the first instance on record where house-movers have taken too much latitude in removing limbs obstructing their pathway, and the public want some protection. Complaints have been numerous, and in several instances injunctions had to be served to restrain house movers from disfiguring shade trees that for years had been looked upon as ornamental land marks.

Hereafter the city authorities propose to deal more strictly with house-movers.

THE EXTENT OF TYPHOID FEVER.

Dr. Strong Says That Portland Has No More Than Other Cities.

"In my opinion," said Dr C C Strong yesterday, "there is not half as much typhoid fever in the city as some people would have us believe. The fact is that Portland has no more fever than other cities of the same size at this season of the year. There is always more or less typhoid in the fall and during the winter—every city expects it, but many of the cases that pass off for typhoid fever are malarial fever. Most of the cases are mild and but few deaths have occurred. The causes are various, the impure drinking water no doubt being one of the factors aiding in its propagation. Much however, depends upon the condition of the subject as to whether the case proves fatal or not. A vigorous healthy constitution is able to withstand an attack of fever whereas the outcome of cases, where the patient is a physical wreck, debilitated dyspeptic and devoid of all energy, are always involved in doubt. As for typhoid fever being epidemic, the idea is preposterous. There is no truth in it."

A VERY NOISY, BUSY PLACE.

How the Wrought Iron Water Pipes Are Being Turned Out.

The shop of Wolfe & Zwicker, at the corner of F and Third streets, where the wrought iron pipe for the new water main to Palatine Hill is being made, is probably the noisiest place on earth. Vulcan's thunderbolt factory was a noiseless place compared to it. Huge piles of the finest kind of No. 8 iron plates, 4x6 feet are scattered around the shop and sidewalks and a large force of men are busy converting these into pipes, which causes the unearthly din.

The plates are first placed under a machine which punches a row of holes across the end by one motion. After the rivet holes are punched in both ends the plate is passed between iron rollers, which bends it into a circle the size of the pipe. The riveters next take it in charge and having placed rivets in the holes, place it on a long semicircular block of iron, and then two men with small sledges batter the rivets till the ends of the sheet of iron are firmly fastened together and a joint of pipe is made. Six of these joints are then riveted together, making a length of twenty four feet. These lengths are then sent up stairs by the means of a long elevator made for the purpose, where workmen cork them by driving a "calking iron" against the edge of each joint till the seams are tightly closed. The lengths of pipe are then taken to the yard at the rear, where a long tank has been prepared for dipping them. The mixture of asphalt is cooked in a huge boiler till of the proper consistency, when it is poured in the tank and the pipe lifted by a derrick and dipped which prevents it from rusting when laid in the ground. This dipping is a matter requiring experience and a man who has been employed at this work for years has been brought here by Messrs Wolf & Zwicker to attend to it.

About 300 feet of pipe is made daily. About half a mile of the pipe is completed and the dipping will be begun to day and the work of laying the pipe will be begun next week. There is four and a half miles of the pipe required, which will cost about $85 000. The iron has been tested by the U S engineers and found to have a tensile strength considerably above that required. It is a comfort to know that this work is being done here instead of being sent out of the state.

PORTLAND'S STREETS CRITICISED

A Stranger Who Finds Fault With the Pavement and Protruding Car Tracks

"Yes, this is a fine city a fine city" said an Eastern man, after he had returned to his hotel from a drive yesterday afternoon, "but the condition of your streets is something awful. I do not refer to their uncleanliness, for they are perhaps as clean as in any other city, but they are so uneven. The pavement is not put down right, the street car tracks everywhere protrude above the grade of the streets and the crossings in some places are high enough for a hog fence. I only saw a few decent streets during our drive, and I wonder how any vehicle in the city can last a year. The pavement in places looks as though it had been thrown down hap hazard, and had gradually made the roadbed as it now exists. This is something so incongruous with the other improvements of the city that it is hard to understand. The city itself seems to be so enterprising and thoroughly metropolitan that the streets, which are always noticed first by strangers, are an unpleasant surprise.

Here you are building cable roads electric motors, a new hotel, an opera house and scores of massive brick business blocks, and your streets in such condition! Certainly some attention should be paid to them, and if possible they should be made to correspond with the other substantial features of the city."

A PORTLANDER REPLIES

A Portlander, who overheard the observations of the stranger, interposed some very serious objections to such an unqualified scoring, and took his newly made acquaintance severely to task for exaggerating the real facts of the case.

"While it is true," said he, "that the streets of Portland are not what they might be, or perhaps should be, I would ask you what city on the coast has better streets? How do the streets of Tacoma or Seattle compare with our streets, or even the streets of San Francisco, one of the oldest cities on the coast? In San Francisco the streets are so rough and uneven that the constant, continual rumbling from morning until night, and from night until morning, resembles some unending funeral dirge. Of course Portland is not an Eastern city of 200,000 inhabitants such as Minneapolis, St. Paul or Omaha, or even the larger ones still further East. All of her growth has taken place within the past few years comparatively and she is improving her streets as fast as any other city. Portland only has a population of some 70,000 and everything cannot be done at once. But there is one thing I can say, while the citizens of Portland are seeing to her material growth and advancement, they do not lose sight of the necessity of beautifying at the same time, not alone for the benefit of strangers, but for their own gratification as well.

Portland to-day has streets that are almost as fine as any boulevard in the East, and those who have not seen them have no right to misrepresent the city because they have not had their eyes open."

ELDORADO MINING DITCH SOLD.

This Great Property Disposed of for $53,511 Yesterday by the Master in Chancery.

The Eldorado mining ditch property, which has long been in litigation, was sold at auction by George H. Durham, master in chancery, yesterday, in accordance with an order made by Judge Deady on August 5.

It was knocked down to W Gert of Chicago, for $53,511, the amount of certain liens on the property held by Gert, Abell and others.

The Eldorado ditch is the longest in Oregon and one of the longest in the United States and was constructed over twenty years ago. Its extreme length from the North or Middle fork of Burnt river, in Eastern Oregon, to Malheur is about ninety-five miles, most of which as originally constructed was six feet wide on the bottom and eight feet on top, it has an extension at the foot of the ditch from Malheur to the Fourth of July and Amelia mining camps of fifteen miles, making a total length of about 110 miles, with distributing ditches on its route, one of six miles to Clark's creek. It heads in the mountains at the head waters of Burnt river and follows the divide between Burnt river and Willow creek, taking its water by water rights acquired to the water of Burnt river, South and North fork, Rock creek, Deer creek, East Camp creek, West Camp creek, Bull Run and Coyote creeks, and other small creeks tapped along its route.

It is not known what disposition will be made of the property, as there is sixty days allowed for redemption, and measures will be taken in regard to it till the expiration of that time. The ditch originally cost about $250,000.

ST. MARY'S HOME ASSOCIATION.

Father Grussi's Work Soliciting Memberships—Work Will Be Resumed in Spring.

The Rev. Father Grussi is meeting with good success collecting funds for the new St. Mary's Home at Beaverton. The cornerstone of this structure, dedicated to the work of sweet charity, was laid last summer and since then nothing has been done beyond soliciting membership to the association. The association is already strong, but as the building will cost much more than was at first anticipated, the membership will be still further augmented. The home will cost in the neighborhood of $16,000 and will be ready for occupancy in less than six months. The foundation has been carefully covered over to protect it against the elements during the winter, but early in the spring the work on the superstructure will be commenced, and the building will be pushed to completion.

Father Grussi, who has been out soliciting memberships during the past few weeks, reports good success.

"At Mt. Angel," said Father Grussi, "taking in the students at the college and the men working at the monastery I enrolled in all, thirty nine members for St. Mary's Home Association. Of these quite a number had already joined last March. I also made quite a good collection for St Mary's Home $47 65 in cash of which $16 15 was given as extra donations. Last week I collected in the Gervais congregation. Here also I made a fine collection $106 50 of which $170 75 was paid as dues in the association the balance ($35 7) being given extra. For Gervais, four new members were enrolled and another extra subscription of $10 was obtained which makes the membership for the Gervais branch of the association eighty one. Mr Mat McCormick one of the pioneer members of Gervais congregation, makes us a donation of a lot that he owns in Milwaukie near Portland the proceeds from the sale of this lot to be used in the building of St. Mary's Home.

The St Paul branch of the St Mary's Home Association numbers eighty five members. Father Grussi also visited the people of St Louis where the association was established with a membership of thirty six with cash collections amounting to $4…, of which $19 50 was received as extra donations.

"Excepting a little pleasant adventure now and then such as being thrown off the dog cart or into a creek by reason of the horse taking fright," continued Father Grussi, "I am getting along finely wherever I go. I find out more and more that people have their hearts open for our great work and why should they not? Religion pure and unspotted with God and the Father is this: To visit the fatherless and widows in their tribulation (and much more, to provide a home for them) and to keep oneself undefiled from this world."

THE DEATH OF AN OLD SAILOR.

William Lavie Passes Away After a Few Days' Illness.

William Lavie an old sailor, who for the past three years has taken care of the boathouse of the Portland Rowing Association, was found dead in his cabin at Sixth and I streets, yesterday morning. He has been very attentive to his duties but once in a while would be absent for a few days so although he had not put in an appearance at the boathouse for five or six days, nothing was thought of it. He was ill and confined to his cabin and the neighbors have been attending to his wants, and at 8 o'clock yesterday morning when one of them called he found the old man speechless, and half an hour later he passed peacefully away.

Coroner DeLin was notified and took charge of the remains, but found it unnecessary to hold an inquest. Among his effects were a paper showing that he was a native of Aberdeen, Scotland, and that he had been in command of a seagoing vessel also a photograph of himself taken in Paris about ten years ago when he must have been a very handsome man. The members of the Rowing Association will show their respect for the old man by seeing that he receives a decent burial.

THE EXPLANATION WAS VERY CLEAR,

But the Knowledge Completely Overcame the Gentlemanly Inquirer

A gentleman called at the office of the Willamette Falls Electric Company yesterday and stated that the arc light in his saloon had flickered the evening before and he wished to know the reason.

One of the gentlemanly young men employed in the office informed him that the radiant energy arising from the sudden and simultaneous absorption of the voltaic cells causes a surplusage of potential energy which breaks or disturbs the polygonal cellular lamina and causes a continuous current of the electric fluid diametrically opposed to the critical speed of the dynamo and to the structural subdivisions of the magnets and armatures in consequence of which the electrodes oscillate and the carbons are given an alternating current and are consumed by volatilization instead of by combination with the oxygen of the atmosphere, and this causes the flickering you complain of.

The inquirer thanked the intelligent young man in a weak voice and staggered through the glass door, and as soon as he got around the corner fell to the sidewalk in a swoon. He says he don't know what it was that overcame him, and he is not going back to find out.

MR MONTGOMERY'S NEW STEAMER

The Work Is Being Crowded Forward—Something About Naming Boats.

The handsome steamer being built at Smith's boat yard by Mr J B Montgomery for the Albina ferry route is well along toward completion and is ready to receive her machinery. The boiler is expected to-day, but there has been some delay about the engines and it is not expected that they will arrive in time to enable the boat to be put on her route before Christmas.

The boat is eighty four feet long which is ten feet longer than the Cyclone and she is calculated to carry 150 passengers. The hull is being sheathed with galvanized iron along the water line to protect her hull from damage by ice or drift. She is a different model from the Cyclone and is expected to be very fast. It is understood that she is to be named the "Typhoon." If Mr Montgomery builds another he will probably name her the Tornado or Sirocco, and we shall always have a wind storm of some kind in port. The best wind in this country is the Chinook and that is also the name of the best variety of salmon. It would be a good scheme to name a boat after this wind or fish, and then it could sail over or under the water.

THE SALVATIONISTS AGAIN.

This Time It Is C. R. Richards Who Wants to Be Released From Jail.

A petition was presented to Judge Shattuck asking for a writ of habeas corpus in the case of C R. Richards, a Salvation Army drum beater, confined in the East Portland city jail for violating ordinance No 7o7, entitled, "An ordinance to prohibit the playing of bands on the streets of East Portland."

Judge Shattuck allowed the writ to issue, making it returnable at 10 o clock this morning.

In speaking of this case, the East Portland correspondent says:

C R Richards, Salvationist, was arrested yesterday for beating a drum on the street and being arraigned before the recorder was given twenty-five days in the city jail. Yesterday afternoon he petitioned Judge Shattuck for a writ of habeas corpus. The city proposes to keep Judge Williams, the attorney for the Salvationists, fully employed to keep the boys out of the city jail.

A SCENE OF LIFE.

Considerable Work in Progress at the Willamette Ship Building Yards.

The boat yard near the East Side landing of the Jefferson street ferry presents a scene of great activity at the present time. The big boat of the Stark street ferry is hauled out and is being reduced in size. Ten feet has been cut off each end and three and a half feet off each side, to reduce the gang ways so that they will be wide enough to take on only one row of teams. The Oregon Pacific Company's steamer, N. S. Bentley is also hauled out and is having a new bottom put on. Above her is the old steamer Wonder, from which the machinery has been taken, to put in a nice new boat, which is to take the place of the Wonder in towing logs for Weidler & Ordway. The most wonderful thing about the Wonder is the fact that she should have held together to be hauled out of the water as her timbers are as rotten as a pear in an advanced stage of decomposition. Opposite the yard, along the public levee are the tugs Annie, Puritan and Louise F Vaughan and the steamers City of Salem and Wasco.

IT WAS A "CORKER."

How a Young Man Without a Foot Surprised a Friend Yesterday.

A young man who some time since had a foot taken off above the ankle, and who has since been walking by the aid of a crutch, was met by a friend yesterday, walking along as sprightly as possible without a crutch or even a cane.

He explained the situation by stating that he had procured a cork foot. When asked how he liked it he expressed great satisfaction. "Why," said he, "I hardly know I have lost a foot and no one can tell by my walk that I have a cork one. It has a joint in the ankle and at the toe, and it is much more comfortable and useful than I imagined it would be. Why I can dance a square dance as well as ever, and I am getting so that I can waltz. I would not go back to using a crutch for anything, and if I should break my foot I would go to bed till I could get a new one rather than to use a crutch."

THE BRIDGE OVER YOUNG'S BAY.

It Will Be Built Without Delay, in Spite of Injunctions

The Astorian of Friday says: The machinations of enemies of the Astoria & South Coast railroad have failed and the bridge across Young's bay will be built and completed by April 1 1890. The railroad company has two franchises—one from the Federal government, through congress, and one from the state, through the legislature.

Lying wholly within state boundaries, the commonwealth of Oregon has original jurisdiction over the waters of Young's bay and the franchise granted to the company the right to build the bridge unaffected by any complex technicalities of jurisdiction.

This right is further within the power of the company to transfer. This the directors propose to do. The franchise will be transferred under certain conditions, wholly satisfactory to the company in which its interests are fully assured to the Young's Bay Bridge Company which latter company will take the contract and have the bridge completed by the 1st of next April.

In less than twenty days there will be 1000 men at work along the line of the road and in addition there will be a large force of bridge builders at work on the bridge that will span the strip of water between Astoria and the coast.

For rheumatic and neuralgic pains rub in Dr J H McLean's Volcanic Oil Liniment and take Dr J H McLean's Sarsaparilla. You will not suffer long, but will be gratified with a speedy and effective cure.

Take the Northern Pacific railroad, the vestibuled sleeper and dining car route for all points East. Office No 1.1 First street, corner Washington.

Electricity Did It.

McMINNVILLE, Oct 18 1889

DRS DARRIN—*Dear Sirs* In answer to your letter of inquiry I can only say that after nine months my hearing remains good, can hear the clock tick in next room plainly. No ringing or buzzing noises in my ears, and I feel as though they were permanently cured and I feel as though you could cure all curable cases. I am truly grateful and feel that you will treat all fairly.

Very truly,
MRS M A JOHNSON

Acute Rheumatism Cured

Mr Editor For months I have been afflicted with acute rheumatism in my hip. The pain was so great that I could scarcely sit in a chair or walk without a crutch. I applied to the Drs. Darrin for electric treatment, and am now entirely cured. Can be referred to at Butte creek, Clackamas county, Oregon.
LUKE TAYLOR

Cancerous Growth and Catarrh Cured.

Mr Editor For five years I have been troubled with chronic catarrh also a cancerous growth in the nose. Through Dr Darrin's electric treatment I am permanently cured. My wife is also cured of malaria and liver complaint and general debility. I can be seen at Mount Tabor and will soon live in Sandy Or. I have witnessed their skillful operations on others.
HENRY VAN HELMS

Cross-Eye Made Straight in One Minute

Mr Editor For twenty years I have been cross eyed and had great fear of an operation. At last I was induced to try Dr. Darrin, as his system is almost painless. Last week I came from California to visit my sister Mrs E H Marshall living on the southwest corner of Twelfth and Washington streets Portland. I applied to Dr Darrin who told me he would cure me or no pay. I was cured in one minute.

JOS. HOLLADAY ARRESTED.

He Came Back to Portland Under a Misapprehension.

He Was Assured That if He Signed a Certain Paper the Contempt of Court Proceedings Would Be Dismissed.

At 10:30 o'clock yesterday morning Deputy Sheriff Mizner arrested Joseph Holladay in front of the latter's residence, on Fourth street, between Stark and Washington, on a bench-warrant issued by Judge Stearns. Mr. Holladay made no objection to accompai.. ing the officer. Before going to the court house, however, the prisoner asked for and was granted permission to visit his attorney, Hon. Richard Williams. The latter was not in at the time, but arrived at Judge Stearns's chambers shortly after his client.

At the time Mr. Holladay and his attorney arrived in court the case of "Biddy" Doyle, charged with conspiracy, was on trial, but Mr. Williams addressed the court, asking for five days' time to file an answer in the contempt matter, which was granted. Mr. Holladay's bail was fixed at $1000, which he furnished.

Just as the criminal case was about to be taken up again, Hon. George H. Williams, Administrator Steel's counsel, put in an appearance and said to the court: "So far as I am concerned, I am willing to abandon the prosecution of Mr. Holladay for contempt, since he has entered into an agreement to let the property belonging to the estate of his late brother, Ben Holladay, be sold, take what money is due him, and cry quits. But, of course, that rests with the court."

Judge Stearns replied: "I think the defendant should purge himself of contempt before this matter is dismissed, and until he obeys the order of this court the matter will remain pending."

WHY HOLLADAY CAME BACK.

Last evening an OREGONIAN reporter sought an interview with the returned exile at his residence. Mr. Holladay greeted the reporter pleasantly and talked quite freely on his case. In response to a request to tell why he returned to this city so unexpectedly after staying away so long, he said:

"I received a document at Kalama a few days ago, with the assurance that if I signed it I could return to this city and would not be molested by the officers of the law. I was informed that if I would sign the papers, and return to this city, and abide by the contents of the documents so signed, Judge Stearns would recall the warrant in the hands of the sheriff. I signed the paper, and arrived in this city in company with Mr. Carl Epperley last Wednesday night. I thought everything was settled; that Judge Stearns had been seen and that I would not be molested, but here I am in court again."

THE AGREEMENT.

Mr. Holladay handed the reporter the following agreement, drawn up by his attorney and agreed to by Hon. Geo. H. Williams, counsel for Administrator Steel, which he had signed:

"I hereby agree that if all proceedings instituted against me for contempt of the circuit court of the state of Oregon, for the county of Multnomah, for disobedience as receiver of said court of an order to join Geo. W. Weidler, my co-receiver, and James Steel, administrator, with the will annexed of the estate of Ben Holladay deceased, in the advertisement and sale of certain property belonging to said estate and held by me as security for the payment of a decree in my favor against Ben Holladay, which said property is in said decree and order described that I will cause to be issued as in said decree, provided an execution issue as soon as practicable for the sale of said property, and that I will as soon as the same can be advantageously done, cause so much of said property to be sold as shall be necessary for the payment of the money due upon said decree, costs, charges and expenses arising or due thereon, and that I will not in any way interfere to prevent the sale of the property on said execution order and will receive such money as shall be paid to me arising from said sale as shall be necessary to satisfy my said decree and credit the amount thereof on said decree, and when the same is fully paid that I will satisfy the court of record, provided that nothing herein shall be construed to in any way affect my claim to be the executor of the will of said Ben Holladay deceased, should the judgment now on appeal removing me as executor be reversed in the supreme court of the state of Oregon.

"I further agree that on my arrival at Portland, Or., I will cause diligent search to be made for certain certificates of stock in the Oregon Transfer Company and in the Willamette Steam Mills Lumber and Manufacturing Company belonging to said estate of Ben Holladay, deceased, held by me as security for the payment of my said decree, and which are now supposed to be lost, and if the same can be found I will produce the same at said sale that they may be duly transferred to the purchaser; and if the same cannot be found, I will do anything necessary and proper for me to do to procure a reissue of said stock and a cancellation of said lost certificates by the proper companies."

THE ATTORNEYS MADE A MISTAKE.

"If I had for a moment thought that everything had not been fully arranged," continued Mr. Holladay, after the reporter had finished the perusal of the agreement, "I would not have left the soil of Washington territory. The attorneys neglected to consult Judge Stearns in the matter, which, when broached, surprised him as much as my arrest did me. I think, however, matters will be satisfactorily adjusted. I will do whatever is fair in the matter, and all I want is to have others do the same."

During the interview Mr. Holladay was in excellent spirits and looked as if his stay in Washington had been beneficial, if anything, to his health.

"OUR BOYS IN BLUE."

Military Orders Promulgated by Colonel Beebe, Commandant First Regiment, O. N. G.

The subjoined military orders for the observance of members of the First regiment infantry, O. N. G., were issued by Colonel C. F. Beebe, under date of November 6:

[General Orders No. 23.]

Companies A, E, C, G, I and K of this regiment will parade uniformed and equipped on Tuesday, November 12, for inspection by the commandant, and instruction in the ceremonies of dress parade and review. Assembly at 8 o'clock P. M. Field and staff will report to the colonel and non-commissioned staff, band and drum corps to the adjutant at the same hour and place.

The following resignations have been accepted by the commander-in-chief: First Lieutenant H. F. McKay, Company C, to take effect October 12, S. O. No. 24, A. G. O.; and Captain E. Everett, company K, to take effect October 18, S. O. No. 25, A. G. O.

Second Lieutenant C. E. Rummelin and Sergeant F. D. Kelsey have been elected and commissioned first and second lieutenant respectively, Company A, rank from October 17; Sergeant B. C. Towne, first lieutenant Company C, rank from same date; and First Lieutenant H. L. Wells, Second Lieutenant W. E. Thomas and C. J. Wheeler, captain, first lieutenant and second lieutenant Company K, respectively, rank from November 8. They will be respected and obeyed accordingly.

The following appointments on the non-commissioned staff are hereby announced: Sergeant F. H. Rosenberg to be color sergeant, vice Towne, promoted; Sergeant J. H. Everest to be principal musician.

The following non-commissioned officers have passed the examining board and received their warrants: Sergeants George Hansen, H. C. Spear, Corporals C. E. Geiger, L. H. Cawston, W. W. Bollen, J. C. Ruzenik, Company A; Sergeants F.E. Casto, C. S. Hand, Company C; Corporals J. P. Bronaugh and W. C. Mendenhall, Company I.

First Lieutenant R. E. Davis is relieved from duty on the regimental examining board from this date. First Lieutenant W. E. Thomas, and Second Lieutenant F. D. Kelsey are hereby detailed on the board. Lieutenant Thomas as president of the board, will convene the same regularly as heretofore, on the second Monday in each month, at 8 o'clock P. M. Returns of appointments for examination will be made by company commanders direct to these headquarters not later than Tuesdays preceding the dates of the decisions of the board.

Sergeant G. A. Beavis, Company E has received an honorable discharge.

By order of COLONEL BEEBE,
GEO. F. TELFER, 1st Lieutenant and Adjutant.

JUDGES, JURIES AND ATTORNEYS.

New Suits—Wants an Injunction—Convicted—Committed—Jones "Kicks"—Etc.

E. T. Davies commenced suit in the circuit court yesterday against James Steel for $2000, alleged to be due on a promissory note. Plaintiff, for a separate cause of action, alleges that he performed seven days' labor as an architect for the defendant, for which $10 per day is a reasonable sum to ask. He therefore asks for judgment in the sum of $2070.

I. and R. Jacobs began suit in the same court yesterday against B Berlier for $140, alleged to be due of a lease of certain property in this city.

AN INJUNCTION SUIT.

Otelia DeWitt began an injunction suit against Sheriff Kelly yesterday to restrain him from disposing of lot 1, block 209, city, on November 11 or any other time.

COMMITTED TO THE ASYLUM.

Dr. A. J. Giesey examined into the mental condition of E. P. Riordan, mention of whose case was made in these columns a few days since, at Good Samaritan hospital, yesterday, and recommended his removal to the asylum at Salem. The patient is suffering from a severe attack of fever, thought to be typhoid, and is very homicidal. He talks incoherently under delusions of greatness, imagining that he is Jesus Christ, etc. Riordan is 27 years of age, and as far as known, this is his first attack of insanity.

CONVICTED OF CONSPIRACY.

James Doyle, better known by the name of "Biddy," on account of a song so entitled, of which he claims the authorship, was tried in the criminal court yesterday, on an indictment charging him with conspiring to kidnap C. L. Headstrom and H. A. Halverson, last December, by having them shipped on an outgoing vessel. The jury found him guilty as charged, and he now has a sentence of from one to ten years staring him in the face.

HOW ONE MAN "SAW PLATO."

A charge of larceny has been preferred against Arthur M. Plato, the employment agent, by one R. S. Jones, who claims to have sought employment of him. Jones, it seems, took the advice of the legend "see Plato," and saw him $1 worth, and on being unsuccessful in obtaining the kind of a job he wanted, demanded his money back, but without avail. Hence the complaint.

Mr. Plato was seen yesterday at his office and said, in explanation, that he told Jones when he asked for his money that he should have to ask him to comply with his rule, which is customary in such cases, and which requires the party to whom employment seekers are sent, to write on a slip which the employment agent provides "not engaged."

"I told him," said Mr. Plato, "that this was the only way the employment agent can know that the laborer is not hired, and is entitled to the return of his office fee. Otherwise, you can readily see that the applicant could take advantage of his knowledge, claim his office fee, and then go and hire out to the contractor. I told Jones his money was ready for him if he would comply with this rule, which is common and necessary. In conclusion, I will say that I am employing these men for George W. Brown, a responsible contractor, and Jones was simply requested to have his check slip properly signed."

BUYING STOLEN PROPERTY.

Zenas Buck makes complaint before Justice Tuttle that one Black has been buying and receiving stolen property.

THE COURT WAS CUT.

The justice court room in North Portland precinct being locked up all yesterday afternoon, the inference was that the magistrate was not Phelan well.

ASSAULTED HIS LAUNDRYMAN.

William Johnson, of Albina, had a hearing yesterday before Justice Tuttle on the two charges of assault and larceny. The complaining witness was one Hong Lee, a laundryman, upon whom Johnson had made a fierce assault in his own barber shop. Johnson deeply regretted the conduct he had been guilty of, and very meekly paid his fine of $10. The larceny charge was taken under advisement. The Chinaman claimed that Johnson had taken $2 50 from his pockets during the scuffle.

A KNOTTY CASE.

The action against Carpenter Carter and Mrs. Cleveland for defacing the building at 145 Third street came up at 3:30 yesterday before Justice Tuttle. The evidence went to show that Mrs. Cleveland had the work done in process of the improvements she is making in preparation for her lodging-house. B. S. Lewis, the complaining witness, claims that his rights were encroached upon, and takes this method of getting satisfaction. After hearing the evidence the court took the case under advisement.

BEFORE JUDGE TANNER.

Among the cases brought before Judge Tanner yesterday were the following:

Casper Miller, Thomas McCrory, Jacob Nash and Thomas Morrice, charged with being drunk, were fined $5 each; John McGraw, charged with the same offense, got ten days in the city jail; Fred Earl, vagrancy, thirty days.

SALES OF REAL ESTATE.

List of the Deeds Filed for Record in the Recorder's Office Yesterday.

Yesterday twenty deeds, aggregating $21,080, an average of $1051, were filed, making the total number of deeds filed since the first of the month 137; value of the transactions, $208,681.

Since January 1 to date there have been filed 4887 deeds, aggregating $11,888,685 57.

DEEDS RECORDED NOVEMBER 8.

AT THE THEATERS.

"The Burglar" drew another good house last night, and Joseph R. Grismer and Phoebe Davies, in their respective roles of William, Lewis and Alice, earned the liberal applause of the audience.

At the matinee this afternoon "The Burglar" will receive its last representation, and to-night and to-morrow night "The Tigress," a new and said to be very strong play, will be put on.

MILTON NOBLES NEXT WEEK.

This versatile actor and pretty Dollie Nobles will present "From Sire to Son" at the New Park, commencing next Monday night. This play is his best work, from a literary and constructive point of view. His language is always forceful, his climaxes intense and naturally wrought, and his characters flesh and blood creations that stand out with life-like prominence. As the reformed gambler Mr. Nobles fills the idea to perfection and gives some admiral instances of natural, quiet and effective acting. Dollie Nobles has made the hit of her life in this play.

CORDRAY'S MUSEE THEATER.

A special ladies' and children's matinee will be given this afternoon, when "Marked for Life" will be performed.

The Musee specialty performance will also be given.

PERSONAL.

Captain Gray, of Pasco fame, is at the Esmond.

Major Ray, of Newport, was in the city yesterday.

W. P. Harrison, of the San Francisco *Hotel Gazette*, left for San Francisco last evening.

J. W. Campbell left last night for the East. He will investigate the toll systems of bridges.

Captain Cleveland Rockwell leaves the city today on a hunting expedition to Sauvie's island.

Captain W. J. Wakeman, assistant surgeon, U. S. A., of Vancouver, left for Lakeview yesterday.

M. V. B. Stacey, the Seattle real estate man, stopped over yesterday on a flying trip home from the East.

Chris Eisele, the artist, has returned to the city, after visiting friends at Oregon City during the past few days.

Mr. E. Quackenbush, of Portland, was in New York November 2 and paid the Eastern office of THE OREGONIAN a visit.

Ex United States Circuit Judge Greene was at the Esmond yesterday. He is just back from a trip east of the mountains.

Agents Maxwell of the O. R. & N. and Crane of the Vanderbilt system leave to-morrow for The Dalles to meet the party of Vanderbilt managers, who will come to Portland by special train.

Colonel C. Mason Kinne, special agent of the Liverpool and London and Globe Insurance Company, arrived in town yesterday for the purpose of selecting an agent to represent his company in place of Mr. Schuyler.

THE RIVER TRADE.

Captain W. H. Pope, who has been running on the steamer T. J. Potter for some months, has been transferred to the Willamette Chief. He came down from Oregon City yesterday with a load of freight. He reports that there is good water between here and Oregon City. Captain Pope says the citizens of that place are anxious for some one to build a fast passenger boat which can run in low water, to ply between Portland and that city, so that the trip can be made on a straight run in an hour or less.

A Pleasure Trip

Spoiled by sea-sickness is a woeful disappointment. This should be guarded against. The preventive is Hostetter's Stomach Bitters, which, whether on the broad Atlantic or some landlocked bay, affords an efficient protection against or remedy for *mal de mer* to the voyager. Emigrants, tourists, commercial travelers find it a useful companion. It removes dyspepsia, liver, bowel and kidney irregularity and rheumatism.

Go and see those handsome pictures of a cottage that is to be given away by the Portland Real Estate Company, at the rooms of the Real Estate Exchange, No. 128 First street, on Saturday, November 16, at 2 P. M. The pictures are in the show window of the Oregon Picture Frame Company, at the Abington building, No. 108 Third street.

Reservations on any steamship line in the Atlantic service to Europe and England can be secured at Northern Pacific ticket office, No. 121 First street, corner Washington.

EAST SUBURBAN MATTERS.

A Special Meeting of the City Fathers Held Last Night.

Various Important Things Considered—Street Railway Franchise—Recorder's Report—Brutal Wife Beater—Etc.

An adjourned meeting of the common council was held last night with the mayor in the chair, and a full attendance of the councilmen. The meeting was called principally for the purpose of considering the franchise of the Thompson-Henston Electric Railway Company, and as a consequence there was a large attendance to hear the discussion. A large number of remonstrances were read against granting any franchise on L street. The route of the company was then changed and made to read as follows:

Beginning at the westerly end of M street and extending easterly upon M street to Seventh street; thence southerly upon Seventh street to Jefferson street; thence easterly upon Jefferson street to Twelfth street; thence southerly upon Twelfth street to Clinton street or Clinton street as it may be extended; thence easterly upon said Clinton street to Twenty-first street extended; thence on said Twenty-first street to Taggart street; thence on said Taggart street to the city limits. Also on W street from Seventh street to Fourth street; thence on Fourth street to U street; thence on U street to a connection with Jefferson street.

When the ordinance was read first last night, there appeared a section which required the company to pay the city 2 per cent. of its gross earnings after having been in operation fifteen years. Judge Bollinger and Mr. Kerns addressed the council, and both stated the company could not accept such a condition. Only one-third of the company's line will be within the city, and it would be taxing that portion outside for the benefit of the city of East Portland.

It was finally determined to grant the company the same privilege allowed other street railway companies, as far as annual licenses, but the 2 per cent. provision was eliminated, and the company will not have to pay this per cent. The vote on this provision was 3 to 5, and the result was applauded by the spectators.

The fare required to be charged is 5 cents from any part of East Portland to its terminus in Portland.

The ordinance was put on its final passage and passed unanimously.

RECORDER'S REPORT.

The retiring recorder submitted his report for the past twelve months, which is a complete showing of the finances of the city. The balances are as follows: General fund, $1916 90; street repair, $29 07; fire fund deficit, $34 47; indebtedness, $5718 45; street improvement, $811 21; sundry, $242 86. These figures correspond with the balances shown in the treasurer's report. The report is the finest and most complete ever submitted to the council. It was referred to the recorder, the mayor and the city attorney.

CITY ASSESSMENT.

H. H. Holmes, city assessor, submitted his bill for services for $550, and also some suggestions. He suggested that the city charter be so amended that the assessor be elected for a period of two years instead of for one year, thus giving him time to do the work in better shape. He would also require the assessor to devote his entire time to the duties of his office; referred to the city attorney, mayor and ways and means committee.

STREET.

Making an appropriation of $6,606 98 for the improvement of Second street from Division to Bush street; referred to the ways and means committee.

GRADES ASKED FOR.

From A. L. Keenan, W. C. Brown and Geo. W. McCoy, asking the council to establish grades at the intersection of Fourth and Division, and Third and Division; referred to street committee and city attorney.

FIFTH STREET BRIDGE.

The recorder was instructed to notify the O. R. & N. Co. to repair Fifth street bridge across Sullivan's gulch, above the railroad embankment.

NEWS ITEMS.

SEWERAGE QUESTION.

The sub-committee appointed by the sewerage commission to secure correspondence and information on the subject of sewerage held a meeting Thursday night at the residence of Dr. Joseph to consider what had been received. Several communications were on hand from Eastern sanitary engineers, but the one which struck the understanding of the committee most favorably was from Emil Kuichling, consulting engineer, Rochester, N. Y. Accompanying the letter was a printed report on the sewerage system for the east side of the city of Rochester, which contains many valuable points and suggestions, as many systems and their respective advantages are discussed in detail. This engineer says in his letter:

"I will be glad to perform the work of devising a system of sewerage for East Portland, providing that all the necessary information relating thereto be supplied by mail, and that my charges for such service will depend largely on what is expected in the way of drawings, specifications and system adopted. For a general report and specifications, with size of sewers designated upon a properly-contoured map of the city, said map to be furnished by your committee, I should charge $350, if the separate system be selected; from $450 to $500, if the combined be chosen, assuming that the area of the city, or that portion which is to be provided with sewers does not exceed two or three square miles. * * * In the choice between the two systems of sewerage mentioned, much depends upon the character of the surface and subsoil, as well as upon local municipal habits and prejudices. For the accomplishment of the same end in all respects there will generally be little difference in the ultimate cost, while the work involved in designing the system will vary considerably."

The sub-committee, after considering the matter, concluded to recommend to the commission that Emil Kuichling be employed to devise a "separate system" of sewerage. This system is one by which the liquid wastes and domestic refuse are carried off by a separate system of conduits from the subsoil water and storm water. The commission will meet next week, when the report will be considered.

A VERY BRUTAL WIFE-BEATER.

Thursday morning a case of wife-beating took place in the orchard in Stephens addition, where there has been so many campers during the past summer. A cry from a tent standing in the orchard yesterday morning called to the doors and windows all the people within hearing to see what the matter was. In an instant a woman ran out from an opening in the tent, closely pursued by an infuriated man, presumably her husband, with an uplifted club in his hands. As soon as he was within reach of the poor creature he felled her to the ground with two heavy blows on the head and shoulder. Not satisfied with this, he again struck the woman while she was down. Presently she arose and staggered back into the tent, and the tragic scene ended. A street car driver, who was passing along with his car at the time, said he was horrified beyond measure by the occurrence. The man was a great burly fellow, and seemed a perfect giant compared with the woman he was beating. According to the statement of the car driver it was the most atrocious affair that has ever happened in East Portland. The family packed up and left yesterday.

REVIVAL MEETINGS.

Revival meetings have continued all week in the Evangelical church, Stephens addition, with much interest shown. There will be three services on Sunday. In the morning there will be a special meeting for young men, in the afternoon a conversation meeting at 3 o'clock, and in the evening the regular revival services.

INTERESTING LECTURE.

The lecture delivered in the Centenary M. E. church by Rev. J. W. Bushong last night on Palestine, was attended by a large audience. It was an interesting lecture, but was not finished and will be finished next Friday.

RELINQUISHES STEAM MOTORS.

One of the conditions of the new ordinance amending the franchise of the Willamette Bridge Railway Company is that the company relinquishes the right to use steam motors on their lines except on N street.

WILL FENCE THE RAILROAD.

The Southern Pacific railroad is to be fenced from Division street to the city limits.

LET THE CHILDREN GO.

To-day is practically children's day at the pavilion, corner Third and Washington streets, where can be seen that wonderful City of Jerusalem, the city with its temples and palaces restored to its former grandeur. So much has been written and talked about this marvelous production that it is unnecessary to speak of it in detail. It is all that is claimed for it, and is worth many times the charge to see it. As an object lesson for the children it is invaluable. Give the little ones a dime and let them see Jerusalem to-day. Open from 10 A. M. to 10 P. M.

THERE IS ONLY ONE WAY TO get at the true values of real estate, and that is to put it up at auction and let the highest bidder take it. This is the way we will sell those large lots in the Third Electric Addition. They will be sold without reserve in the rooms of the Real Estate Exchange, No. 128 First street, at 2 o'clock P. M., on Saturday, November 16. The buyers will receive an elegant present in the shape of a nice lot with a fine cottage built by day's work. This cottage is not "to be built," but is now completed, and we shall be glad to take you to the cottage and let you examine it, as well as the lots we offer you at your own price. Comfortable seats will be provided for the ladies.
